[Music]

[Music]

well greetings brethren
welcome to another wednesday night bible
study you'll just have to excuse me i
need to shut the audio off
of my screen here so i'll be i'll be
right back
i apologize for that i just had the
screen on and didn't want the audio to
be feeding back
um we're up to isaiah chapter 21
uh this evening so we're going to be
continuing
these judgments on the gentile nations
that surround jerusalem and judah
and a couple of things i just want to
point out before we get into the
chapter tonight um one is that
um all of we have to know our geography
and all of these nations that are called
out for prophetic
condemnation by isaiah they're
all in the middle east and they're all
the neighbors
of jerusalem and judah so if we cannot
locate jerusalem on a map
then we're going to come to a kind of
strange conclusions about who
these players are for example there's a
theory that
babylon is america well you know america
is not mentioned
and i know that herbert armstrong when
he was studying the scriptures and and
just couldn't understand how is it that
amer all these little nations are
mentioned
but america is not mentioned how could
that be and that caused him to go on a
very deep study

to come to realize that america britain
these nations are actually
descendants of israel and so that was a
great insight
however there's another answer i think
as we now come into this final chapter
of why america isn't mentioned in these
prophecies
and it's i think the conclusion is
america doesn't matter
as powerful as a nation or empire
as america is or maybe i was going to
say was but but still is although it's
in rapid decline
it looks like by the time we get to the
end
america is irrelevant that it is just
unraveling so fast so rapidly it's
collapsing
right before our very eyes and so this
is what nations do
very few nations make it past a couple
of hundred years very few empires world
empires
make it past a couple of hundred years
and it looks like america will be no
exception so
in the heyday of america it was very
difficult to understand how is it that
america is not mentioned
in scripture but now as we watch the
rapid collapse of america
i think perhaps uh another uh
perhaps another theory or or possibility
is that america becomes becomes
completely irrelevant
in the end time and so let's let's bear
that in mind that geography matters as
we study scripture
and secondly that the prophecies of
isaiah
are dual that many of these prophecies
as we read them they were they had
immediate application

for judah and jerusalem these prophecies
the fulfillment of these prophecies was
just around the corner
you know within within a hundred couple
of hundred years um
at the same time the nature of the
prophecies
show us that it's a dual that these
these some of these prophecies it's
impossible
for them to have been fulfilled in their
early
fulfillment to be fully fulfilled that
christ said that he came
to to fulfill to the full and so after
the first coming of christ now
the ball is set in motion for the full
deployment of these prophecies and so we
have to bear in mind that as we're
reading this
some of it has immediate application
but it's also dual uh pointing to the
time just ahead of us now
so let's uh open with a word of prayer
and then we'll get into the study
for this evening our loving heavenly
father we pause as our custom is
to acknowledge you to thank you father
in a world gone mad
a world that is just uh drunk
on every false ideology we thank you
lord for your word
and we thank you for putting in us a
love
for your word a hunger and a thirst for
your righteousness
this is your gift father we acknowledge
it we thank you for our repentance and
pray that we will continue
to to walk in this way and to to use
your word as a lamp unto our feet
we pray for your blessing and our study
father we pray for your blessing upon
your people

and especially father where we're
praying for our sister lisa
and our sister mary for your special
healing mercies upon them
we thank you father we ask your blessing
upon us now in jesus name
amen so uh brethren we're up to isaiah
21 let us now
look at this passage and
we'll begin so we you know past couple
of weeks we've seen judgment on
egypt on mob which is jordan on
syria damascus all these surrounding
nations assyria
all of them in the middle east we see
these
incredible judgments upon them and
babylon is called out for specific
condemnation
and that's what we're going to see here
in this chapter chapter 21 it is a curse
upon babylon so it says here the burden
or the oracle of the desert of the sea
and that is
referring to babylon as this sort of
fertile
nation within what is typically a desert
of the burden of the desert of the sea
as whirlwinds in the south
pass through so it comes from the desert
from a terrible land so there's going to
be a destruction
upon babylon from the middle east it's
not going to become from
way overseas it's it's these middle
eastern nations that are in the desert
area
this is where the destruction of babylon
is going to come from
a grievous vision is declared unto me
says the prophet this is horrible
this is horrible this is this is beyond
the pale
this is hard for human comprehension but

isaiah got
wind of this a grievous vision is
declared
unto me i'm just hoping that i'm coming
through clearly
i'm assuming that i am everything looks
good on my
end i'll just check here i think
everything's fine
um a grievous vision was declared unto
the prophet
the grievous vision is declared unto me
the treacherous
dealer deals treacherously
and the spoiler spoils so there is
something that's going to happen
that babylon is not going to anticipate
it's going to be a strategy that is
somewhat deceptive and comes out of
nowhere
go up o ilam besiege
o media so elam and media
today we would call these nations the
persians the
medo persians we'll call this iran we
would call this
iran today oh thank you sister velma i
see i'm here coming through clearly
thank you
so uh so this this this treachery
that's going to be inflicted upon
babylon is going to come from persia
and and anciently that's exactly what
happened that babylon was this
powerful powerful nation empire
we could see no end to babylon and then
god raised up cyrus the persian
and with his strategies and his strategy
for he was able to take down
babylon again we've got to think in
terms of duality
that this was true anciently but perhaps
we need to
consider in the future that it is iran

the shiites
that are going to strike against babylon
the sunnis
the or the isis iraq and syria
so they they control babylon today or
they will
there's going to be some radical muslim
element that has control of that
and it looks like iran is going to
really
maybe drop a nuclear bomb on them who
knows what but it's something that
isaiah saw and it was just beyond the
pale
in terms of grief all the signing
thereof
have i made to cease not quite sure
how to interpret this phrase
i think what i wouldn't how i would
interpret it
is you know the same way that um the
children of israel under egypt were
crying out to god
and god heard them perhaps this sign
is the sign of judah and babylon is
oppressing judah oppressing judah and
now god is going to crush babylon he's
going to use
persia to crush babylon and cause this
sign to cease
but it's going to be a disaster it's
going to be grief beyond the pale
upon babylon so here in verse 3 he says
therefore
are my loins filled with pain because of
what he saw
the destruction that he saw was going to
come upon
babylon it's just he was just in a state
of terror
and just stunned shock therefore my
loins
filled with pain therefore are my loins
filled with pain

pangs have taken hold upon me
as the pangs of a woman that is in labor
that travails
i was bowed down at the hearing of it i
was dismayed
at the seeing of it and sometimes you
know if
when god shows his people and he doesn't
necessarily show his people
uniformly but when he does show his
people
uh some people are basically different
parts of the body some are the eyes some
of the ears some are the the legs
different parts of the body
but when he shows his his ministers his
people his shepherds
what is going to happen sometimes we can
be in a state of grief and groaning
and and the rest of the body doesn't see
a problem the rest of the body might
think everything's a-okay but those of
us who are studying the prophecies
and we see what's coming a pardon us if
we're in a state of grief
christ was a man fully acquainted with
grief
because he knew what was coming upon his
people and upon
the the surrounding nations
so here the the prophet is
processing what has been shown to him
and he's struggling to digest it despite
the fact that we're talking about
babylon here
but what's coming is so intense he's
having difficulty processing it
i was bowed down at the hearing of it i
was dismayed
at the seeing of it my heart panted
fearfulness frightened me this is how
intense the destruction of babylon was
going to be
and is going to be the night of my

pleasure
has he turned into fear unto me so even
he couldn't even sleep couldn't enjoy
his evenings as
he's a married man um this just
overwhelmed him
and then he says this prepare the table
watch in the watchtower eat drink
arise you princes and anoint the shield
so what's happening here
again this is dual but anciently
we know that persia destroyed babylon
this powerful
world ruling empire we think of
nebuchadnezzar
but after him i believe was his grandson
who bell belted belta shazar
it's either baltis or belshazzar that
the name escaping right now i think it's
belshazzar
um and daniel was belted shazaar um
we know that he was feasting and so it's
like yeah go ahead
prepare the table have your feast we'll
be watching from the watchtower
you have no idea what's about to come up
on you
suddenly and so prepare the table and
eat and drink and have your party
knock yourself out enjoy you enjoy your
time while we'll be in the watchtower
watching what's about to happen
and then he says you princes or you
leaders and anoint the shield or the
shield would be the ruler
so you need to find a new ruler you're
going to be taken out like don't don't
rely on this guy
he has no idea what's coming but you
need to prepare some kind of defense
because what's coming is going to come
suddenly
for thus has the lord said unto me so
there's an insight that i have

and it comes from the lord go set a
watchman
and let him declare what he sees so so
god is always going to show us ahead of
time
what's going to happen and then he
expects us as his loyal watchman
to declare that and so he says to isaiah
that this is gonna this is going down
you need to set a watchman
and you need to declare what's going to
happen and i think the declaration is
not
only to babylon but also to god's people
now now's the time to repent god god is
coming to save you
and you need to be ready to meet him
for thus says the lord said unto me go
set a watchman
let him declare what he sees and then
what did he see
and he saw a chariot with a couple of
horsemen
a chariot of donkeys and a chariot of
camels
and he hearkened diligently with much
heat so basically there's an army coming
coming for destruction of babylon and
the watchman sees it because he's
looking for it
the babylonians don't see it they have
no idea it's coming but the watchman
sees it
and he cried a lion my lord
i stand continually upon the watchtower
in the daytime
and i am set in my ward whole nights
and this really speaks to the patience
of the watchman that when god says this
is coming
wait for it and sometimes it might be
you know we're saying look this is going
to happen this is going to happen
and it really feels like it's going to

happen imminently but god is just so patient he's just so patient that he extends the time
and i think when the destruction finally comes nobody can say well i wish i had more time
i think god gives as much time as he possibly can and so the watchman is faithful
he knows that he has to do this and he's continually on the watchtower all day long and in the in the whole night
night upon night upon night and he knows it's coming and so he's watching many might give up and say oh it looks like it's not going to happen no it's going to happen
everything that god says is going to happen is going to happen it just may not happen
according to our timing so we know we're right just the timing
is is what we have to be patient with and behold here comes a chariot of men so finally on this night
now we see something happening and behold here comes a chariot of men with a couple of horsemen and he answered and said
babylon has fallen so here it comes there's no tur this is the point of no return babylon has fallen
is fallen and all the graven images of her gods
he has broken unto the ground so these graven images are this really the ideology
that supports the greatness of babylon when you look at these great empires if you think of
egypt egypt was great as an empire because of the ideology that underpinned it

and the whole empire believed in this ideology
and and conformed to it and and worshipped the pharaoh because then this is what made
uh them so committed to this great nation
so if you want to shatter an empire shatter its ideology
and and certainly this is when i say we're watching the collapse of america well what's what's what collapsed first
its belief in christ america used to believe in christ
and then you know the the uh 44th administration basically declared we are now a post-christian nation
and from that point to now we've just watched
this this collapse there was a little bit of you know trying to to just to stop the hemorrhaging with 45
but that was just a blip and now we're just clearly seeing
and certainly in canada we have become post-christian
post-christian to the point where where pastors are being clearly persecuted i just
was watching a news story on pastor artur uh pavlovsky
out in calgary and how somebody uh was sabotaging his vehicle and removed all the lug nuts off
of a wheel and and the wife and children were to go on a trip
and that would have killed the family but somehow she asked a friend if he if he wouldn't mind just going to take the car just around the corner to get it washed
and on the way back the wheel fell off

and then the tires were slashed
and unfortunately he wasn't hurt and he
wasn't going very fast but if if the
wife got in and went on her trip
she'd be on the highway you know going
some 60 70 kilometers 80 kilometers an
hour
maybe 50 miles an hour and uh and that
would have been disastrous
and the police ah
the media media doesn't even touch it
but you you pull off the the the hijab
of a muslim woman and this is this is
international news
where you try to slay and murder a
christian pastor in his family
and we don't bat an eye because we are a
post-christian
so nations collapse when they stop
believing
in their ideology in what made them
great
and so again i think the way we're
reading these uh prophecies
the west is irrelevant there's nothing
that america does here
and judah has to realize that she can no
longer rely
on the might the military might of
america that she cannot rely on
anybody except her god and she's not
there yet
but with all of the uh trauma
that she's she's going to be she's
undergoing now and will continue to
undergo and it's going to continue to
intensify until she realizes there's
nobody there to help her
but her messiah
so here the nation of babylon is fallen
but her ideology is what is completely
shattered the belief in their great gods
this is no they no longer believe this
this is the end of allahu akbar

that's gone bob
and even the language babylon has fallen
is fallen
so this should ring a bell to us to
completely so
so john in his revelation is calling
back
to this prophecy in isaiah so if we look
now in revelation 14 9 we see the same
language
and the third angel followed them saying
with a loud voice if any man worship the
beast and his image there's the ideology
and receive his mark in his forehead or
in his hand
uh i should have gone on there let me
just go back to
revelation 14.
it's 14 8 i want it so revelation 14
8 so i'll read 8-9
and there followed another angel saying
babylon is fallen
is fallen this is calling isaiah's
prophecy this is it
so and that how you saw the terror of
isaiah when he saw the fall of babylon
well it's dual yes it happened with
persia anciently it looks like it's
going to happen again
babylon has fallen his fall in that
great city because she made all nations
drink of the wine of the wrath of her
fornication
and so the third angel followed them
with a loud voice saying if any man
worship the beast in his image and
receive the mark in his forehead in his
hand
the same shall drink of the wine of the
wrath of god
which is poured out without mixture into
the cup of his indignation so
this is the terror that isaiah saw he
was terrified

of this and babylon managed to get all
these nations to to
to buy into her ideology and and that
ideology culminates in the persecution
of judah
which then culminates in god's
indignation
this is his these are his covenant
people and they'll be tormented with
fire and brimstone in the presence of
the holy angels
and the presence of the lamb and in
revelation 18 and verse 2
and he cried mightily with a strong
voice saying
babylon the great is fallen it's like it
has to be said twice
it's so uh unbelievable
and inexplicable and surprising that
this
powerful empire has collapsed
and so we can expect in this end time
you know
matthew 24 there's going to be wars and
rumors of wars there's a reconfiguration
of
of the geopolitical scene and again what
we're
seeing here as we study these prophecies
in isaiah america is irrelevant
the west is irrelevant the focus of the
theater
is the middle east and the nations of
the middle east
so as the west gets drunk on on marxism
they're destroying themselves they're
destroying their greatness and they're
taking themselves out of play
and so other nations now are going to
come
into that vacuum that power vacuum and
and
clearly the focus is the middle east
and so there's the shock that babylon

the great has fallen and has become the
habitation of devils in the hold of
every foul spirit and a cage of every
unclean
and hateful bird and then verse 21 and a
mighty angel took up a stone with a
great millstone and cast it into the sea
saying thus with violence
so there's some kind of you know
climactic end
to babylon it's a very violent end this
is what isaiah saw
thus with violence shall that great city
of babylon
be thrown down and shall be found no
more at all
which is a very different judgment when
we looked at for example
syria damascus her judgment
wasn't a complete end you know israel's
judgment isn't a complete
end a serious judgment isn't a complete
end
egypt's judgment isn't a complete end
but babylon
it's a complete end it's a complete end
this this
this we can expect what we call iraq
today that this
ancient babylonian geography
this is going to be the center of great
glory in the near future
and it's going to be so great that it's
going to seem like it could never end
and then it's going to collapse we have
to have imagination
and and see the world not as it is today
but
as it needs to be in order to conform to
scripture
and and christ tells us there's going to
be wars and rumors of wars and this is a
great reconfiguration
and and that unfortunately brethren for

those of us
in the west isn't good news
we have had relative peace for hundreds
of years
in the west because of the power
of the west and and you know i was
looking at some um
past uh videography of of uh it was um
in the way somewhere in america and it
was that day at the beach
and you see these people they walk with
dignity they're fully clothed
there's a scent you get this great sense
of morality from them
and and nobody could touch the west
the the concepts and the ideas that that
that have powered and built the west
were phenomenal and second to none
to the point where turkey uh the ottoman
empire
had collapsed in the face of the power
of the west
and ataturk the the ruler of turkey just
said islam is ridiculous
this this is nonsensical this is stupid
let's stop being stupid
all of this garbage that we're believing
about our greatness
is just not true look look around us
we're backwards
and he he he made islam illegal he said
it's complete
rubbish and nonsense and he made it
illegal and he tried to westernize
turkey so that it could catch up to the
greatness of the west
and now the west is taking this
greatness and basically
flushing it down the toilet and so this
is not good for those of us
in the west because now we have no
defense against people who hate us
against nations who despise us and i'm
very very sorry for america her borders

are wide open
and all kinds of people who
are possessed with demonic hatred
of america are just coming in coming in
by the tens of thousands
monthly maybe daily and they're
spreading all over it's like a cancer
spreading all over the nation
how will the nation recover from this
it's basically past the point of no
return
and and somehow our brethren can't see
this
we have our brethren supporting
movements that are destroying the family
and the family is what made america
great what made the west great
the christian family and now christians
are supporting movements that are
destroying the family
and with it destroying the nation it is
it is
if i wasn't alive if i wasn't alive
to see all of this firsthand nobody
could make me believe it
people would be telling me no but adrian
this is what i say nah
i would need like two three witnesses to
confirm this story
but we're seeing it with our very eyes
you know i laugh but
it's it's it's a laugh of of grief
it's so tragic but hopefully you know
it's not over until it's over
hopefully we go far enough that we we
wake up and see what's happening
and maybe put up a bit of a fight and
and then defend our families even though
for many
unfortunately our families
you know they're going to be destroyed
and then powerful marxist governments
which we are saying oh we need more
government we need the government to

feed us
we need the government to help us we
need the government to fight our battles
and all that means is the government
must become more and more powerful
and when it becomes powerful enough they
come into your home and they remove your
children
and do whatever they want with the
children because they don't believe in
family
they don't believe in morality and so we
need to be careful what is it we're
supporting
we support christ and that's it
so babylon is going to come to a
tremendous end
and this is all the theater for all of
this is the middle east
verse 10 of so america doesn't matter
canada doesn't matter
britain doesn't matter these these
nations are irrelevant
all the action is in the middle east
and surrounding the promised land it's a
great controversy
over the promised land and over the
covenant people
and whether or not they can be in the
promised land and then isaiah says this
in verse 10
o my threshing and the corn of my floor
that which i have heard of the lord of
hosts yehovah
the god of israel have i declared unto
you
so this now his threshing oh my
threshing
these are his people who have been
threshed
by babylon all my people who are
oppressed all my people who have been
slaughtered
and subjugated and raped and humiliated

all my people who have lost your power
who've been shattered that shattered the
power of the holy people
in the corner of my floor these are the
people who've
been crying out for for relief
that which i have heard of yahuwah
of hosts he's the god of israel
have i declared until so babylon
has a completely different worship
system
and manages to get the whole world to
buy into it
and that means a complete hatred of the
covenant people
and a complete hatred of the the
scriptures of the covenant people
and that means a pathological murderous
hatred
of the covenant people and oh how they
have suffered
and then god has given isaiah this
vision
of babylon's end and now isaiah
is telling god's people
he's heard directly from god this
suffering this persecution
this oppression and humiliation and
subjugation it's coming to an end
so that's babylon he now goes on in
verse 11
the burden of duma he called to me out
of
seer watchman what of the night
watchman what of the night so watchmen
what are you seeing
you're on your post what do you see and
now this
so first we saw the burden of babylon
now we're seeing the burden of
duma what is duma or who is duma
and he's calling to him out of seer
asking him what he sees so douma genesis
25 and verse 14

clearly we see here that duma
is a descendant of ishmael if you read
the passage in
genesis 25 these are the descendants of
ishmael
but at the same time this burden
concerns esau which is seer
so there's some blending here
between duma which could be edom if they
take it from the um
not not uh hebrew but uh the name
justice gave me the language um
hebrew and and uh just this casey at the
moment
uh it'll come back to me maybe somebody
could type it in the chat
um so that would be a derivative of
edom but at the same time duma is a
descendant of
ishmael but either way it really doesn't
matter what we see here is
islam in the end time this is a muslim
nation and also we see in genesis 28 and
verse 9
that esau which is edom went unto
ishmael
and took unto the wives which he had
mahalath the daughter of ishmael
abraham's son the sister of nbc
to be his wife so esau married into
ishmael
so these people are co-mingled so
whether we say that duma is ishmael
or duma is edom either way
it is the um aramaic thank you thanks
pastor murray
that's the uh that's what i'm trying to
think of yes from the aramaic
duma could be from edom but from the
scriptures duma
is a descendant of ishmael but whether
it's edom directly or
ishmael because they're the one in the
same peoples

and today they are muslim peoples and
these all of these nations
surrounding judah and jerusalem they
have a pathological
murderous hatred for judah and jerusalem
because the founder of islam had a
pathological murderous hatred
for jews because they wouldn't accept
him he basically
caught on you know today if you want to
be wealthy today
you know get into technology and maybe
you know get into vaccine technology
if you want to be really really wealthy
so there's a sense that you know today
silicon valley
is where that's where the money is you
know so you want to be you want to be
wealthy
get into technology back in the day
or to go in 7th century you want to be
wealthy
get into religion you want to have
authority you want to have control and
power
religion was the thing and so whatever
was catholic islam well you know you get
into religion
and so muhammad got into religion for
power
and then he went to the jews and he see
you know he saw the jew he was emerging
he saw the jews the christians
and he realized the power of scripture
and the power of robes and beards
and so he wanted that and he saw how
backwards his arab people were
and he wanted to lift them up out of
their backwardness their cannibalism
and perversity and so he brought
religion to them and they accepted him
they had they didn't know anything about
prophets they didn't know anything about
scripture

so anything he told them i'm a prophet
this is the scripture these were
backward ignorant people who knew
nothing
and so they accepted him and as he
started to grow in power and influence
then he went to the jews
and he said to the jews i'm the prophet
you're looking for i'm your messiah
and the jews said no i don't think so
why the jews were educated the jews
understood scripture
and so you couldn't just come and make
things up you saw you see how they were
with christ
where christ had to challenge them and
show them in their own scripture
what is what but they knew the
scriptures and so muhammad came along he
didn't know the scriptures he was just
making things up
and they wouldn't accept him and he
became he developed a murderous hatred
for them
they didn't accept him would slaughter
them all and that became
you know canon that became quran
and so everybody who now is programmed
by koran has a murderous pathological
hatred for the jews
and so all of these nations who accept
quran they all surround
the nation we call israel today the
tribe of judah and they have
been programmed with this murderous
pathological hatred
and so that's why we see in these
passages the the complete
cursing of all of these islamic nations
because they've accepted this this this
drunkenness
of of hatred for god's covenant people
so here we have edom and ishmael
being cursed

here and so he says here that in verse
11 that he called me he called
to me out of seer so what i can make
there
is in deuteronomy 33 and verse 2
he said the lord came from sinai
and rose up from sir unto them
he shined forth from mount parana and he
came with ten thousands of saints
from his right hand went a fiery law for
them so it looks like god is going to
destroy seer and then come
to save his people from seer
and i think that's the name that's the
notion here that isaiah is saying that
he called to me from seer
watchman what of the night what are you
seeing what of the night
and the watchman said the morning comes
so the morning is good news the night
passes the morning is coming
and also the night so this is like yeah
the morning's coming
that's not going to last very long
darkness is coming back
it's almost like the situation we find
ourselves today where it's like here we
are in canada we're into this
lockdown and it's like oh they're easing
up the restrictions morning
is coming are you kidding me do we
really think that we're gonna have our
freedom back
yeah okay yeah they're gonna ease up the
restrictions and then there's gonna be
another clamp down
and another one after that forever you
know now we need a climate change clamp
down
or now now we have a serious virus and
you know you were all clamping down for
covet 19 which is 99.6
recoverable now we have something that
you know the recovery rate is not so

good
so whatever extreme measures we were
taking for covet 19
now we need to lock you up in your house
you know or or you know the world will
end in in eight years
if we don't do something about the
climate so we have to do it now it's an
emergency pull the emergency brake
so so yeah we you know we can see
freedom is coming but so is the night so
so here the watchman is saying yeah
morning's coming for sir but darkness is
coming right after that
if you will inquire inquire you
return come yeah keep keep asking me
saying to sir keep asking me and i'll
tell you
this this it's not good your prognosis
is not good
the prophecy against you it's
unrelenting
because of what you did to the covenant
people
now again we have
and we saw earlier from isaiah where he
says
arabs will no longer pitch their tents
so clearly as we look at the end time
the arab nations are in their glory
the ottoman empire is resurrected islam
has the upper hand
these these arabic nations are powerful
and glorious
and judah is going down down down down
down jerusalem is
the abomination that makes desolate is
going to be the
the absolute bottom of the pit for judah
but arabs they're going to be in their
glory
and america is irrelevant canada's
irrelevant england's irrelevant
europe is irrelevant

so now the next curse
it's all middle east it's all muslim
nations
the next curse the curse the burden
upon arabia all these arab nations
in the forest in arabia shall you lodge
so
there's no real forest in the desert but
whatever shrubs they can find they need
to hide
the the glory of arabia is gone oh you
traveling companies
of dinanim and so who is didan
here in genesis 10 we see the sons of
kush
siba and havala and sabta and rama
and saptaka and the sons of rama
so this is descendant of kush sheba and
the dan
so the dan comes through question we saw
earlier when god was cursing egypt and
ethiopia that these would be cushites
or some of these would be kushites and
so these all arab nations
god is going to destroy the arabic
tongue
or the egyptian tongue which is arabic
so all of these nations of arabia
the inhabitants of the land of tema
brought water to him that was thirsty
they prevented him or they met him
with their bread hymn that fled so it
looks like
these inhabitants of again these these
arab nations are trying to help now
so so esau or edom is coming into
complete destruction the
arabians are coming under destruction
and there's somebody who's trying to
help them
for they fled from the swords from the
drawn sword
and from the bent ball and again this is
fascinating because

this is really clear
islamic warfare
islam is all about sword
and chopping people's heads off with the
sword and they were all bowmen
this was very interesting the first
horse rider is a horse with a bow
ishmael was a bowman so these are
islamic
nations islamic islamic armies and and
they are fighting each other they are
destroying each other
and this is the legacy of their prophet
whose prophecy he didn't really have
real prophecies he didn't have
prophecies like
scriptural prophecy where where you
don't have to do anything you just
god is going to do it you watch and
witness
his prophecies the muslims have to carry
it out and make it happen
but one of the things he said was in the
end time
there will be 72 sects of islam
and only one of them is right he doesn't
say
which one is right or why so they just
have to so what it means is
there's going to be 72 secs of islam and
71 of them are going to be infidels
that need their heads chopped off and
only one of them is going to be true
that's going to make it into paradise
but he doesn't tell them which one so
they're going to be chopping each
other's heads off
you can never be you can never be muslim
enough
no matter how muslim no matter how
devout you are it's not good enough
there's always somebody to say no you
need to give us more you need to do more
it's like it's a similar to the marxist

woke
uh cult you can never be woke enough
no matter how woke you declare yourself
to be you need to give more
you need to give everything it just
keeps getting darker and darker
and so here we see this clearly these
are muslims destroying each other
and the prophecy is already in play
there's going to be 72 sects and only
one is right the rest are infidels
and so these people are fleeing from
their own islamic brothers
they fled from the swords from the drawn
sword these people are
bloodthirsty they want their heads
and from the bent bow and from the
grievousness of war
for thus has the lord said unto me
within a year according to the years of
a hireling
and all the glory of kedar shall fail
so what is this now so god is saying
like this thing is timed perfectly
that when god says this these this these
arabic nations are going down
set your watch set your alarm clock
it's going down at the exact precise
moment that god says it's like
a hireling is um you know you're you're
hired to do a job that you hate
and you're told look put in your eight
hours you you're going to start at 9 00
a.m
and you're not off till 5 pm and you
have that person watching the clock it's
like
okay it's 4 57 just three more minutes
and i'm free
it's 4 58 it's 4 59
and 45 seconds and the minute it strikes
five o'clock i'm clocking out and i'm
getting out of here
while god is saying like okay these

arabic nations
are going down at a very precise moment
and not a moment later
you can set your watch by it as if you
were an employee that hated your job
now here in
ezekiel 27 just to
just drill down again on these these
arabic nations and why they're going to
be
destroyed ezekiel 27 verse 20 didn't
was your merchant here he's talking to
the palestinians the tyre
and the great glory of the palestinians
and he's saying to them didn't was your
merchant didn't traded with you
and was happy to trade with you in
precious clothes for chariots
arabia and all the princes of kedar this
is why they're coming under a curse
they occupied with you in lambs and rams
and goats
in these were they your merchants
so you're there destroying judah
destroying the covenant people
and they're happy to have it this way
and they're happy to be in league with
you and help you destroy judah
and they're happy to trade with you and
the glory of that traffic
just just grows the these islamic
nations
on the backs of the destruction of judah
and god is calling them out for
destruction the merchants of sheba and
rama so we see these are the cushites
now
this would be north africa
they were your merchants they occupied
in your fares
with chief of all spices and with all
precious stones and gold so
when babylon falls it's all of her
merchants

are crying and wailing because they were getting rich off her but they had to buy into her ideology in order to be able to participate in this economic traffic back to isaiah last verse here of chapter 21 and the residue of the number of archers the mighty men of the children of kedar notice the scripture doesn't have anything to say about the mighty americans or the mighty british or the mighty canadians all of this glory or the mighty europeans all of this glory that you see in the western nations which is derived from christ whether they believe in christ or not they want to call themselves atheists it doesn't matter the foundation of these nations the ideology that unlocked the human spirit of creativity and respect for the individual all of that came from the influence of christ and so the glory of these nations came from christ and now they're post-christian they've rejected christ they hate christ and so with that rejection of christ is the rejection of their own glory and now the west is collapsing and so in this power play in the end time the west has nothing to do with it the west is irrelevant but these muslim nations grow to fantastic glory and all the traffic is allowed because they have the same ideology they're allowed to have this same ideology until they turn on each other and destroy each other

but here the remnant of these
powerful soldiers these powerful muslim
hordes and
armies it shall be diminished
there will really be nothing left but
but
just a a a speckle
and how do we know that for the lord god
of
israel has spoken it missed
all the scripture we have no clue what's
happening in the world
unless we understand what the lord god
of israel
has spoken we don't care what the quran
says
except to understand how it fits in the
bible and we don't care what karl marx
has to say
except to understand how it how it uh
accelerates
the prophecies of scripture we care
about the god of israel because he's the
creator
and he's the only one that can declare
the end
from the beginning from the very
beginning we can open up genesis and see
how the whole thing is going to end
he declares the end from the beginning
and from ancient times here
isaiah ancient ancient times
thousands of years ago that which is not
yet done
saying my plans shall stand
we serve an incredible mighty mighty god
and we're just so privileged to have
access
to the ancient scriptures and so this
was isaiah 21
it is the burden or the curse of babylon
and the surrounding islamic nations
and the god of israel has pronounced all
of this and he's coming

to save his covenant people let's wait
for him brethren
let's look for him and let's really
declare this this good news of the
gospel
let's learn it so that we can teach it
accurately
jesus christ is lord god bless you
brethren
you
