well welcome to another Wednesday night Bible study and it's been a little while since we've gotten together we had the break over a December in the first part of January and then I was hoping to do a broadcast last week I was on the road and I upgraded my hardware and unfortunately the software was not compatible with the hardware for some reason or another I still haven't sorted it out I'm back on my old hardware for this recording but I wanted to give on some new hardware because I want to make sure that we're able to do more for example when I'm with Pastor Murray and other pastors I think Bill Watson is gonna be joining us at some point to be able to have some video and to have the hardware that can handle that so appreciate your prayers and also be doing a lot of traveling next couple of months as well so many of these broadcasts I'll be on the road and sometimes the internet is flaky etc etc so we'll do what we can to make sure we

keep the momentum going each week so we're up to Psalm 58 let's open with a word of Prayer and then we'll get into the study for tonight our Heavenly Father we pause before our study as we always do to acknowledge you to thank you to praise you and to ask you Father to continue to bless our understanding help us as we work through these Psalms to gain the insights to gain the understanding we know these Psalms were respected very highly by the Lord when he was here he quoted them often the New Testament quotes them often and so father we just pray that you'll uh deepen our understanding and help us to fully grasp the narrative in the Bible and the prophecies and the understanding that you want us to have we praise you we thank you and we thank you for Jesus Christ and pray in his name amen so Psalm 58 and a lot has happened since we have been together that just so much has happened in the world and the wooden towers to be poured into a new not just a new year but a new decade and these are the twenties if you think of the Roaring Twenties in the 20th century and what followed was the 30s which a disaster so you know who knows what the pattern is going to be but what we do know is our world is changing very rapidly and we need to be on alert and on guard and and praying for one another and and and staying deep in the Word of God now let me just set up here quickly give me a moment so just a bit of rusty it's been a while and I apologize I'm in a different time zone as well excuse me so I'm just at the tail end of my my wakefulness but God willing we will we'll be in good shape for the for the study tonight so we are here in Psalm 58

and it begins with to the chief musician
I'll toss gift mid Tom of David so it's
a psalm of David and this I'll test gift
I was looking in the Septuagint and the
Hebrew it just seems to mean do not
destroy so somehow it's a psalm of David
and it is an imprecatory psalms it's a
psalm where he's calling down curses on
the enemies of Israel on on his enemies
so let's let's get into the song verse 1
do you indeed speak righteousness o
congregation and most of the
translations will translate this all
rulers some translated o you gods I you
know and some are trying to make an
argument I looked at some of the
commentaries they're trying to make an
argument that these are these are
angelic or demonic type beings but I
don't think that that is the case I
think that as we read through the rest
of the passage I think those that
translate this as all you rulers that
that would be the appropriate
translation so so these rulers are
positioning themselves as righteous
people and and they're they're speaking
righteousness and and David is beside
himself is like what do you indeed speak
righteousness
you rulers do you judge uprightly oh you
sons of men yeah in heart you work
wickedness you weigh the violence of
your hands in the earth and again before
following the u.s. election the
political situation in America and
whether we live in America or not if we
are Christians if we believe in freedom
we should be we should be following very
closely what's happening in the American
political scene as America is the
guardian of Christian values in the
world whether we like it or not that is
the situation that we're in that if the

American system collapses Christianity
collapses with it
this is such a powerful nation and it
really is holding Christian and
judeo-christian values in place globally
and that's why she's the prize that's
why so many are out to destroy America
and even from within and if we look at
what's happening in America with the
fake impeachment these people just so
lofty and so righteous and they pray for
the president all the time and and yeah
right we could we could very very easily
respond as David did that do you speak
righteousness do you judge rightly yea
in heart you work with wickedness
there's a deep wickedness within and the
wickedness to set out to destroy a
nation from within just to destroy
America from within and to root out its
judeo-christian values this is
wickedness you weigh the violence of
your hands in the earth so there really
are people who operate throughout the
earth and you know if we look at the
previous administration destroying
Christians in the Middle East embolden
the Arab Spring and the broke Muslim
Brotherhood and and you know going out
there to really let them know they've
got a green light and then we see our
organizations like Isis who are just
growing in territory every single
weekend
they seemed unstoppable
while America's hands were tied that
military was being compromised and this
this was violence in the earth there was
terrible things happening to Christians
for those eight years and and the
administration just turned a blind eye
while it encouraged the Muslims who are
behind it and that is just
well-documented you weigh the violence

of your hands in the earth the wicked
are estranged from the womb they go
astray as soon as they are born speaking
lies this is incredible so they are just
born into these families where you know
their character is really worn it's
warped almost from birth from the womb
and you look at you know right now this
whole situation with Hunter Biden and
his character you know people have
problems and obviously he has problems
being a drug addict and then having an
affair with his dead brother's widow and
then while he's having that with her
he's off to another woman and making
that stripper pregnant and at the same
time having you know being let go
dishonorably from the military and being
serving on these oil company boards
whether in China or Ukraine and making
tens of millions of dollars but having
absolutely no value this is high
corruption and these families are very
corrupt and they're their children their
offspring go astray as soon as they're
they're just born into this corruption
and so we can again just get an insight
into what David was facing by seeing how
power is handled in today's political
situation he says they're poison is like
the poison of a serpent they're like the
Death Adder
that stops her ear which will not
hearken to the voice of charmers
charming never so wise they're ever so
wisely so the way David characterizes
these people is their poison is like the
poison of a serpent and you look at some
of these serpents in
how they strike and how powerful and
potent their venom is and David's
observation is yeah that's what these
people are like that's what these rulers
are like it's horrible

what the corruption that they're involved in and what they're trying to do to God's people and they cannot be charmed they cannot be tamed the evil is so wicked not even the most cunning snake charmer Kim can gain control over this serpent it's just wild it's on it's on it's unmanageable the wicked is unmanageable now I want to go into judges just because again if with this American situation in which as we enter this new decade we should all be focused on it really is the most important or one of the most certainly top two or three most important political situations globally that we should be watching now some will argue and you know Bill Watson just did a great study on this or news Biblical news update on this when he introduced the notion that we should not be looking as Christians we should not be thinking politically in terms of the left versus the right you know Democrat versus Republican conservative versus liberal that this is this is gone this is over this is this is obsolete this this paradigm is obsolete now how Christians should be thinking is we should be thinking globalist versus nationalists and are these people globalists or are they nationalists God the God of the Bible is all about borders the God of the Bible is all about distinctions the Bible opens up as he introduces himself to us and the and Moses writes of the creation account it's all about creating distinctions this is not the same as that the waters are not the same as the land animals are not the same as man is not the same as woman and as we go further into the Torah we learned that Israel is not the same as the rest of the world and even within Israel the

Levites are not the same
as the rest of Israel even within the
Levites the priests are not the same as
the Levites God is all about
distinctions and wanting these
distinctions honored and he himself puts
the borders around nations so Christians
are nationalists nations will be forever
we read in Revelation how the nations
will exist forever God is a God of
nations so this concept of just mixing
everything together and and everything
on we're all the same this does not come
from the God of the Bible so we should
not be thinking Democrat versus
Republican we should be thinking
nationalist versus globalist and that we
know the beast power is a global power
so do we do we lose our nation and have
it folded into this global beast power
or do we protect our nation's and
there's nothing you know now patriotism
is made out to be some sort of dirty
word if you're a patriot there's there's
that's a mental illness there's
something wrong with you that everybody
has to embrace this global concept where
you know let's let's have open borders
because you know everybody in the world
is just so lovely and all all everybody
wants to do is just hold hands and sing
Kumbaya well that's not how the world
works and we need borders and we need
locks on our doors because there is such
a thing as evil and so you know
particularly with the American situation
people are looking at Donald Trump in
fact I was speaking with a business
colleague last week from America and you
know we were just having appetizers and
talking and he was talking about Donald
Trump in a very disparaging manner and
there's sort of hatred toward him and
despising of him and then while we're

talking the CNN was on the TV and there's some headlines just again just very you know CNN constantly negative news just just negative the subtitles we couldn't hear what they were saying we saw the negative subtitles and you can see that it a jaded him and I began I realized with a lot of people they really don't dig deep into the News they just kind of hear the headlines and and I think the media know that so they just throw these very negative headlines without giving much detail or even if there is detail they know most people are not gonna read it most people aren't gonna dig into it they just hear the headlines and that's how they form their opinions so I just had to ask them a few questions and and slowly bring him around and get him to see that Donald Trump cannot be it's not possible for a human being to be as evil as they are portraying him and that he's an American and he's fighting for America and he loves America and others have been working to destroy America and I actually had to ask him can he tell me one speech where the previous president ever praised America ever said that America was exceptional ever said that he loves America just one speech and it caused him to pause and reflect and then you know he started to say well Donald Trump's character you know he doesn't want his son listening to his tweets and seeing this kind of character and I asked him at that point is he familiar with Samson in the Bible and he kind of chuckled and said wow it's been a long time and I just explained to him you know Samson was a savior for Israel that the judges you know we don't say judges as if we say today I've judged in a courtroom but these judges were

saviors like many saviors of Israel and they were flawed human beings but they were the saviors of Israel and if God sends you a savior you don't just sit there and start to criticize and then push back on the Savior and say you want somebody perfect so you know you're talking about Trump's character and I said to him if your house was burning down and the fireman is coming to save your family gonna stop him at the door and say let me evaluate your character or do you accept the fact that he's in a roll and he's performing the role to the best of his ability and it happens to be a role that's gonna save your family and we sort of ended the conversation by me saying look I'm Canadian and I just want to let you know I really don't want to live in a world where America is not the superpower I don't want to live in a world where Iran is the superpower of the world or turkey or or China some communist country is the global power of the world and I think that caused him to reflect as well but let's look at the character of just one of these judges and you know we could have picked Gideon as another man who was a savior of Israel with a very flawed character and most of the judges had terrible character but they had special abilities that God gave them that enabled them to be the saviors of Israel so here if we look at the character of Samson here in judges 14 and verse 1 that Samson went down to Timna and saw a woman in Timnath of the daughters of the Philistines so this is a man that was a Nazarite from birth and so he should that she should be in a vow to the Lord but his character was horrible and he had a lust problem and so he saw this woman this this

Philistine woman this non-israelite woman this this pagan woman in Timnath and he saw the woman a daughter of the Philistines verse 3 then his father and his mother said unto him is there never it's like is there never a woman among the daughters of your brethren like why everyone else Israelites marry Israelites according to the Torah why can't you do that son is there never a woman among the daughters of your brethren or among all your people so within your tribe or or just within Israel can you not find a woman there that you that you go to take a wife of the uncircumcised Philistines why would you do that and Samson said unto his father get her for me for she pleases me well you know I've had intellectual conversations with her and I can assure you dad that she has really good character and she's really intellectual of course that wasn't the conversation it was just all lust yeah she I look at her and I just just the way she looks just drives me crazy you get her for me this is how he's talking to his parents this is a credibly flawed human being incredibly flawed in in chapter 16 now after he's done with this woman then we come to him in 16 and verse 1 then when Samson to Gaza and saw their a harlot and waiting unto her this is a savior of Israel this is who God uses this is somebody who was genetically encoded who was who was wired a certain way that he could be used by God to save Israel and look at his character who Glenn and God is the one who selected him and God is the one who sent him to save Israel and if we were alive at this time would we be saying well no we can't have we can't

support Samson we don't want anything to do with Samson we don't care if God is the one that is sending this Savior we couldn't care less we would prefer that all Israel be destroyed and subjugated by the Philistines rather than accept the help that God is sending verse 4 and it came to pass afterward that he loved a woman in the valley of Sorek that this man is sick he's got a he's on a mental illness when it comes to women he just he has no control of himself he can't control himself his eyes are just driving him to distraction and then it ends up that the Philistines actually put out his eyes so that's where that led him so it says it came to pass afterward that he loved a woman in the valley of Sorek whose name was Delilah and that's where we now know the story of Samson and Delilah and she seduces him and tricks him over and over again until she can finally figure out what is the source of this incredible strength that he has and she finds out that it was hair and cuts off his hair and then they're able to bind him and put out his eyes while here it is verse 21 the Philistines took him and put out his eyes what a what a tragedy that he became a slave to these people and they were horrible and this is uh this is a for taste of what they will do they is all Israel if they get their way Philistines took him and put out his eyes and brought him down to Gaza and bound him with fetters of brass and he did grind in the prison house so they have some sort of enslavement Garr slave labor that they've subject subjugated him to notice now verse verses 28 to I think 32 as we wrap up here in judges and Samson called unto the Lord so there was some sort of a relationship between

Samson and Yehovah and God selected Samson and sent him as a savior because of his makeup because of how he was wired and in terms of a modern-day parallel these judges were saviors and America was it was just we were losing America on the world scene the previous administration did everything it could to just erode America's strength and to compromise America's strength in America was the laughingstock globally and that's why that slogan make America great again that done really resonated with a lot of people because there was this recognition that America was no longer great and here we see Samson having certain characteristics that God could use and very very few people have the characteristics of a Donald Trump when I look at the incredible amount of a relentless persecution against this president it is it is unprecedented I've never seen anything like it I I don't know if there's anything in history in the history of America like this I don't even think Abraham Lincoln was persecuted on this level perhaps I'm wrong there but you know if not or if he was then you know I don't think any other presidents could apart from Lincoln could say there have been persecuted more than Donald Trump and they talk about this Trump derangement syndrome is just why that they've lost control of their destruction they're the sort of slow destruction of America this agenda they had to destroy America and bring America because America is the price the global agenda cannot bow forward as long as America is strong and they've lost control that whether it's Republicans or Democrats it didn't matter what we've

learned with this new term that we didn't understand before a deep state or or stay behind Network is they're the ones who really run the country and these presidents are just figureheads ok it's your turn ok it's your turn and this wild card has come in and he's a real president he's saying ok I don't belong to any of you you have nothing on me I you know I'm not a pedophile you've got nothing you can bribe me with I have my own money and I'll make my own decisions and this is driving them crazy and so they have to get rid of him and put somebody in place that they have a leash on that they have control over that they have bribe bribery over and so this person you know he just he takes it and he just keeps fighting and keeps fighting and he keeps winning and keep swimming and it's miraculous what has happened to America in the last three years it's a miracle and I you know I can only say from my perspective it appears to be ordained by God that this is somebody who even my mother said this to me I was taught there she does you know if you don't really follow politics that much and I'd you know she's certainly no fan of Donald Trump and would be more inclined to listen to the CNN's of the world and accept their their news but she's turned off CNN and she actually said to me Donald Trump must be ordained by God she doesn't understand it how how he's still in office and how he still succeeded so even people who are not fully aware of the whole politics of the situation can look and say wow there's something happening here that's beyond the normal and so here we see this man a very very flawed human being reaching out to God and saying remember me I pray you and

strength

to me I pray you only this once oh yeah
over that I may be at once avenged of
the Philistines for my two eyes and
Samson took hold of the two middle
pillars upon which the house stood and
on which it was borne up of the one with
his right hand and of the other with his
left and you know stars you know Donald
Trump ago as you could say and he's got
the Republican pillar on one end and the
Democrat pillar on the other and this
whole deep state left/right nonsense
he's just destroying it the whole thing
is collapsing or it you know the saying
now is to drain the swamp and Samson
said let me die with the Philistines and
he bowed himself with all his might and
the house fell upon the lords and upon
all the people that were there in so the
dead which he slew at his death were
more than they which he slew in his life
and so he slew a lot of Philistines and
God used him to save Israel and then
even in his death he completely wiped
them out and that's how God you know
throughout the judges we see God
constantly this this covenant
relationship that he has with Israel
where he never gives up on Israel and
although they deserved the punishments
that they are afflicted by when they cry
out to God he delivers them and he uses
flawed human beings to deliver them what
is coming in the future is so horrendous
it is beyond imagination that that I
believe that God is just delaying it
he's delaying it and that donald trump
is how god is the donald trump and the
resurgence of American greatness
globally is is God delaying things that
when you look at this this Iranian
leader soleimani who was just taken out
and and the left is mourning him the

left is treating him like he's some sort of rock star that it's a shame that the great loss this man a terrible monster this man was destroying lives left right and center Christian lives Muslim lives all over the world he was just horrendous and and his networks and his control in his masterminding of of terror attacks and the left is mourning this the loss of him he should be rejoicing of America's greatness you know I was just on the plane and just making a list of you know if the left gets back into power in America what are the things that we can expect to see you know we saw the whole growth of the Muslim Brotherhood as a result of the previous administration we see that the rise of abortion and the push for even late term abortion and even infanticide the curtailing of free speech for America the remove menteur the second Amendment rights the criminalization of Christianity we need to be able to think ahead like this is no longer left and right this is globalism and the destruction of nations versus nationalism and the preservation of judeo-christian character of Western nations so we see the criminalization of Christianity encroaching communism incredible corruption the manager if Hillary Clinton was president of the United States and you see this Crooklyn 30,000 emails Justice when she subpoenaed she just deletes them and destroys them open borders were drugs and children and women are just trafficked left and right by powerful drug cartels and you see politicians becoming incredibly wealthy to the tune of tens of millions of dollars and they've never been employed they've never had a job they've never created a

job that have created a company they've never done any valuable work they've just been in public office and they have net worth of tens hundreds of millions of dollars how does that happen without corruption see the slaughter of Christians in the Middle East we see you know these children who have no value you think of the paul pelosi hunter biden they have no character they have no value and yet they're tens of millions of dollars in wealth China how that the growth of China the influence of China that the selling of nations over to China the tech giant's than being unstoppable what we what you saw happen to judge Kavanaugh the false accusations to avoid the the influence conservative influence in the in the courts that what we want judges that are Marxists that will rule and let criminals walk free you see the the drive to prevent any sort of conservative judges are the whole lgbtq+ agenda which is anti-christian and as they gain in power as they gain in honor that means the degrading of Christianity pedophilia growing everywhere the left has a fascination with pedophilia the drag queen story time of being introduced transgenderism being you know the highest honor to take children and mutilate their genitals so they can be the other gender we see cities just falling apart and I'm just making a little bit just at the top of my head just making this this list the destruction of Jerusalem that the turning over of Jerusalem to the saying this earth a man selamanya that all codes the Jerusalem army that it's their right to control and take over Jerusalem toxic masculinity that men can't be men

a race Wars that we should be celebrating how miraculous it is that the races can get along and that we've made some significant progress instead when the left is in power it's all about race and we take giant steps backwards and race becomes the driving issue the whole environmentalism climate change being the highest religion which is really a Canaanite religion the Canaanites were environmentalists and the Canaanites worship the environment and that's what we're bringing back so it's just a quick list off of my head all the danger that Christians would be in and are in as the left exerts its influence and so to have somebody who says no we actually want the Bible read in schools we want Christian prayer in schools we want Christian prayer in the White House we want to restore judeo-christian values we want to push back against the encroachment of the value of individual rights we should be grateful for this and this whether you're American or not when when America is strong judeo-christian values have have worth globally and the whole concept of human rights as a global correct the recognition of human rights globally this is because of judeo-christian values we the fundamental ethic of judeo-christian values is that the individual matters because the individual was made in God's image and likeness you remove that and this is where communists Islamists others to just white people out left by the tens of millions of people and they just don't care because the human being has no value what has value is the movement what has value is the idealism whatever that ideal is that they're striving for

if we have to trample over tens of millions of human beings in pursuit of that ideal well that's ok because the ideal is what matters whereas judeo-christian values say no every human being matters because every human being was made in God's image made in God's likeness and has that hue that potential to full be fully realized by God so we see here that Samson how flawed he was and I said I just picked one judge well we could actually go through each judge ago actually there would be an interesting studies to go through all the judges and see the flaws in their character as significant flaws I was thinking of Gideon I could have done this on Gideon who who was a tyrant that once once he first of all he was very doubtful he was almost faithless but once he was convinced that God would be with him and then when he was successful it was he was a womanizer had so many wives of countless wives so I came here though an appetite for women like Samson at least I think they were Israelite and had tons of sons and then those sons became tyrants over Israel as well these were flawed human beings but Israel was in trouble they cried out to God God sent someone to to help them to save them and saying now we have no idea the suffering because of open borders the suffering because of human trafficking and how God has now sent some help to restore and to slow down the destruction of America which is good for Christians and and our children now Paul in 1st Timothy 2 and verse 1 says this I exhort therefore that first of all supplications prayers intercessions and giving of thanks be made for all men for kings and most certainly Donald Trump is

as a king in terms of biblical languages
then what he's the most powerful man on
the earth today and it's refreshing to
see him willing to use that power if
necessary to defend the the citizens
that he's responsible for so we should
be praying for Kings and I really don't
understand Christians that's support
this coup attempt this impeachment was a
coup to bring down a democratically
elected president this is criminal
activity and Christians should not
support it we should not be like yeah
this is madness this is a man that was
democratically democratically elected
and he's for America he's for the people
of America he wants to give Americans
the ability to better themselves and
he's doing that he's not giving them
free handouts and welfare to chain them
and and enslave them and bribes of no
he'll just remove the red tape and allow
you to pull yourself up by your
bootstraps which is the American Way
Christians are certainly the disposition
I think Christians should have is to
pray for him and why
for kings and for all that are in
authority why that we may lead a quiet
and peaceable life in all godliness and
honesty
now just ask yourself if the left was in
power the Glitter let me say the
globalist the globalist were in power
did they care about Americans what they
care to take this top terrorists out
this monster or would they allow him to
just grow in power and then can
Christians live alongside leaders that
have this ideology that Christians are
garbage I was reading the speech that of
Barack Obama gave in Cairo when he went
over shortly after he was elected
president and he went to Egypt he gave

the speech to Cairo and and he seemed he made some comment in there that you know the Holy Koran teaches us never mentions the Holy Bible in a complimentary way but the Holy Koran teaches us and then he went on to say something about you know the the equal justice for all human beings this is all cold language you know that that the Koran does not consider Christians and Jewish human beings we are less than the filth on the earth according to the Koran so human beings can only be muslims and if you don't read the Quran if you don't read the hadith you don't understand this it just sounds good so yeah all human beings well when these people are in power Christians and Jews are not human beings and they are subjugated and history shows us this the Christians and Jews are subjugated in the most most awful ways most humiliating ways so we have to pray for kings and all that are in authority that we may lead a quiet and peaceable life and and and taking a man like Soleimani out of commission and and standing up for America and putting borders around America and and you know reinvigorating American values this enables us as Christians to lead a quiet and peaceable life in all godliness and honesty for this is good and acceptable in the sight of God our Savior so in other words not to do this is not acceptable to God so we cannot be on the side of criminals engaged in a coup attempt to take down someone who is actually fighting for Christian values flawed character notwithstanding as we see God uses judges or these saviors with flawed character to save his people to at least delay the the curses that are coming and we should we should care

about that so that we can do the work of
God week in the weekend he says what did
you say to pray because this is a that
we may lead a quiet and peaceable life
in all godliness and honesty and when
when the economy crashes when we're
facing starvation when we're facing
persecution when the nation's are handed
over to communists and Islamists very
very difficult to lead a peaceable life
as a Christian in those conditions let's
conclude the psalm he says now so this
is now the implication or the bringing
of curses and this also shows why he was
not talking about demons when he opened
the song he's talking about human human
rulers that are so incredibly corrupt
and now this is the curse that he brings
down upon them break their teeth he just
said that thereby they're like vipers
and they use their teeth to inject
poison and venom into their victims and
he now calls on Jehovah break their
teeth Oh God
in their mouth break out the great teeth
of the young lions and now the metaphor
shifts from serpents to lions but the
same ideas this viciousness and he wants
God to to break their teeth let them
melt away as waters which run
continually so just let them melt away
like let them be gone and he realizes as
well that this is supernatural that he
can't do it he needs God to do it
and God will do it let them melt away as
washes which run continually when he
bends his bow to shoot his arrows let
them be as cut in pieces and then he
says as a snail which melts you can just
sort of think of those slugs that move
so slowly and if the bright Sun comes up
and it would just burn them and I just
can't move fast enough to get to the
shade as a snail which melts let every

one of them pass away he's so disturbed
he's so disgusted by their evil he's
calling these curses down upon them God
would break their teeth that they would
wash away like with with the waters that
as a snail melts let every one of them
pass away every one of them like the
untimely birth of a woman that they may
not see the Sun so let them just be
taken out before your pots can feel the
thorns he shall take them away as with a
whirlwind both living and in his wrath
so he's seeing that God will act and
then he says the righteous shall rejoice
when he sees the Vengeance so David
understood this and I don't think we
necessarily understand this God is angry
God is angry with the wicked every day
and he is going to act and he is going
to act in fury and great wrath and and
what we're hoping is for that Passover
that that wrathful pass over us and it
will fall on the heads of the wicked but
we cannot expect that if we are not
Torah compliant so we cannot be lawless
people and think because we're Christian
you know once saved always saved it's
all good no God is angry with the wicked
he's coming to crush disobedience and
lawlessness and so as the world goes
crazy and as they don't really is it's
going insane you know what we see them
doing to children and then that
generation
grow up and have no moral compass it's
terrible as the world goes insane and
becomes more and more lawless because
these children are not given any kind of
moral code they've taken Christianity
out of the classrooms and replaced it
with sexual deviance with Islam with all
kinds of nonsense with atheism with
evolution all sorts of nonsense
and they've taken the Bible away from

the children the righteous shall rejoice
when he sees the Vengeance that God will
act the same where he is faithful to
Israel he's loyal to Israel Israel being
that the people of Israel not not the
nation Israel which is really the tribe
of Judah

the righteous shall rejoice when he sees
the Vengeance he shall wash listen to
what david says he shall wash his feet
in the blood of the wicked you know john
and revelation says even so amen

even so amen oh well that the wicked
have been warned and warned over and
over again and so when this happens it's
oh well and there it gives an indication
again of their being so much blood that
God is acting with with so much wrath
and so much vengeance there will be so
much bloodshed and we can look at the
Battle of Armageddon the blood will be
up to the horses bridles

but he says yea though the righteous
shall wash his feet in the blood of the
wicked so that a man shall say truly
there is a reward for the righteous and
in the book of Revelation ends with God
saying ah I come quickly and my reward
is with me and we have to believe that
he is that the you that he is a rewarder
of them that diligently seek Him and so
a man a man will truly say there is a
reward for the righteous truly he is a
God that judges in the earth and this is
this is just the missing piece this is
what people don't understand and the
wicked don't understand and they they
pursue these these wicked ends and it's
just it's madness

but the righteous understand that God is
a God that judges in the earth and so
all of this corruption that we're seeing
God will judge and I think what happened
to soleimani is just a foretaste of the

wrath of God that is coming upon all the wicked and so let us pray for our leaders that we as Christians can lead godly lives and can preach the gospel and and convert others into this calling so that they can be a part of this great Ward and they can come to understand that truly this is a God that rewards the righteous and rewards those that diligently seek Him and this is a God that judges in the earth he's silent he's hiding himself from Jacob right now but he will act because of his faithfulness to his covenant what a faithful God we serve Jesus Christ is Lord Jesus Christ is our King and our sick
