well welcome back to another Wednesday night Bible study and it just looks like my sound is a bit loud I'll just wait for confirmation on how is the sound if you can just tell me on the chat and what I'll do is I'll go ahead and open with prayer and then I'll look for the tip of chat messages to make sure that I'm coming in through loud and clear our Heavenly Father we pause before our study as always to give you praise to give you thanks to acknowledge you Father and to ask that you bless our study that you deepen our understanding that you give us wisdom father as we just rehearse these ancient words of wisdom and bring them into our lives now and pray God that you'll give us insight understanding give us knowledge father and give us that wisdom that we can govern our lives by these words we praise you we bless your Holy Name and we ask all of this in the name of our Lord our Savior Jesus Christ amen okay so just check on this sound it's loud and clear very good okay good excellent

so um tonight we're just gonna finish off by xiah at chapter 47 we started it last week it's a short chapter 15 verses I covered just chapter 1 but we'll get through the rest of it it wouldn't take long and pastor Marie is graciously joined us so what I'd like to do is you know we've been going through these chapters pretty you know with rapid clip every week and and some of this information that we're uncovering in Isaiah and the gospel the good news for

a lot of us it's like different it's different than what we might have heard before and yet there it is in black and white in Isaiah well it's not only do is just pause and use the balance of the time that we have together just to answer questions and what I've been hoping to do and just the technology is not cooperating with me I didn't get enough time to sit down and work with but I wanted to bring pastor Marie into the study hopefully I'll be able to do that but if not he's still with us and we'll just figure out a way to make it work and then I also wanted to integrate Facebook so that I can bring the live questions from Facebook into the study as well unfortunately as I logged into Facebook it said I have to verify my account and I wanted to go through some rigmarole to verify Who I am and I didn't have time to do that either so Marie and I will just look at the chat Facebook and I'll also try and monitor YouTube in case there any comments there and we'll just entertain your questions and work with them so let's go ahead and get into this study we will look at the rest of chapter 47 and then God willing we will then have some Q&A opportunity for Q&A with myself and pastor Marie so let's let's do that let's get into today's study with Isaiah chapter 47 so here we see we read this last week beginning in verse 1 this is now the the attention turns and it focuses now on the enemy of God's people this is Isaiah 47 verse one directed now to Babylon specifically the daughter of Babylon come down and sit in the dust this is really a position of shame going from glory to shame overnight and certainly in the Middle East when one sits in the dust and throws dust on their head it's

just a real symbol of complete despair and humiliation so this great power is told by God to come down and sit in the dust a virgin daughter of Babylon so this is the daughter of Babylon so we have really have to think about in terms of a timeline where we'd say the children of Israel so Israel was the man and then in today's day we look at his children the children of the man so here we're looking at the children of the to the city or the daughter sorry of the ancient city of Babylon and virgin daughter in the sense that inexperienced with with defeat that it's coming to power Revelation tells us that she will she will reign for a short time but because of this sort of sudden rise to power and never experiencing any defeat there the worst percent who could make war with with with the Beast and just seeing this power sees herself as a virgin sit on the ground so go through this high lofty position sit on the ground no throne so the throne is over you've gone from the throne as I'd say that was never a throne she was well suited are seated on the throne she's been knocked off the throne by God to the dust Oh daughter of the Chaldeans so in case we missed it Isaiah wants us to be to make sure we're clear this is the daughter of Babylon it's the daughter of the Chaldeans so we need to just look at our ancient maps and see where was Babylon where was tell dia and who resides there today that's going to suddenly come into this worldwide power and we saw last week when we looked at Zechariah 5 that between Genesis 10 and 11 and zechariah zechariah 5 all of this wickedness this this mystery religion began in Shinar and then at the end Zachariah sees this vision where this

wickedness goes back to the land where it began and so where it began is where it ends and and all of this will come to a conclusion where it all began and and and so we're expecting now based on the prophecy that this area this specific land were Satan as you're really zeroed in and in a sense tried to make his Jerusalem because he wants to be like the Most High it's gonna come into global power and then it's going to be so the people of the chaldeans for you shall no more be called tender and delicate and that's you know and I read this I think of these brutal dictatorships that usually they come into power suit through some sort of revolution and they're just ruthless but once they come into power they try to behave in a legitimate way and they show up at conference world conferences and they show up as leaders and they're dressed in their suits and they try to look legitimate and certainly if you think of the Ottoman Empire how wealthy this Empire was just dripping in in opulence and and so it looked very delicate and looked very beautiful but the ruthlessness from the founder are awesome right up to all of the Sultan's of all of the the kaleb's who ruled just how ruthless they were in order to get this position of delicacy and and and looks like tenderness and very refined so that's over this this facade both of the glory of Babylon that everybody's believing in God's gonna knock it out no more instead they're going to be in the dust in their their their brutality will be exposed this is in contrast or in Contra distinction to Jerusalem the reversal of fortune goes both ways babalons upon a throne it ends up in the

dust

Jerusalem's in the dust it ends up on a throne so there's this reversal of fortune for Satan's city and for God's city he says here we're gonna read this later so I won't spend a lot of time on it but in Isaiah 52

he says awake awake we this is the time to awake get up get up

awake awake put on your strength only Zion put on your beautiful garments so when is going to be stripped of her garments the other is going to be dressed in beautiful garments Oh

Jerusalem so again in case you missed it it's Babylon daughter of Babylon daughter of Chaldeans it's Zion and in case we want to spiritualize that away it's Jerusalem to be specific so in case we want to spiritualize Babylon away no it's the children of the Chaldeans

put on

beautiful garments on Jerusalem the holy city so this is the tale of two cities for from now on their son won't were coming to you the uncircumcised and the unclean this is exactly what zechariah saw in chapter 14 where he says no more Canaanites in Jerusalem

Isaiah seeing the same thing that when Jerusalem comes into its glory never ever again will the unclean come into Jerusalem and in Revelation chapter 20 at the time of the second resurrection we see Satan make this final thrust this final gambit trying to get into the holy city and God the Father sends down fire from heaven and destroyed them all so God means what he says when when Jerusalem is reestablished

never ever again will the unclean coming to her unfortunately until that time the unclean will be over running our Jerusalem and they will set up the

abomination of desolation within
Jerusalem in verse 2 as ayah says shake
yourself in the dust so in chapter 47
he's saying to the Chaldeans that to
Babylon you will no more be called
tender and delicate there's no more
throne for you get off the throne and
sit in the dust he resisted Jerusalem
get out of the dust and sit on the
throne put on your beautiful garments
shake yourself from the dust so
everybody's going to go to their
rightful place and these powerful
Babylonians need to go to their rightful
place the dust and God's people in the
dust need to go to their rightful place
a place of glory shake yourself from the
dust arise and sit down so one has to
get off this wrong the other needs to be
enthroned sit down Oh Jerusalem loose
yourself from the bands of your neck o
captive daughter of Zion so the daughter
of the Chaldeans is going to be
enslaving the daughter of Zion and and
not until God comes does the
set up get reversed for thus says the
Lord you have sold yourselves for
anything so you were foolish you sold
yourself into this situation for nothing
but you will be redeemed without money
so God is coming with a purpose and he
is going to redeem his people and then
just fast forward in Isaiah 52 which is
really where we're heading to understand
the Gospel according to Isaiah what is
the Gospel according to Isaiah we need
to be very specific because Jesus Christ
was very very specific he says how
beautiful upon the mountains are the
feet of him that brings good news so so
Jesus Christ went up and down these
mountains in in in Judah preaching this
good news he equated Isaiah he didn't
come with a different gospel this was

the good news that he brought and Isaiah says Isaiah prophesied this because he brought good news about Jerusalem about the ultimate end of Jerusalem how beautiful upon the mountains and the redemption of his people how beautiful upon the mountains are the feet of him that brings good news that publishes peace it's it's such good news because there's so much warfare that is going to be unleashed upon Jerusalem and upon the people of God that the one who brings the good news and whose tell that there's going to be eternal peace the city of peace will have peace just how wonderful of him that publishes peace and good news brings good news of good that publishes salvation so again when we read Isaiah we realized this salvation is very specific it's not a generic oh let's just save all mankind it is a very specific salvation each in his own order and and and the the identity of the children of Israel matters in the plan of salvation because they have to be the head nation so God is coming to redeem his people he's coming to restore his his people he's coming to exonerate his people from all blame and to wash all sin from them and to establish them as the head nation with and and the first fruits have been recruited to help in this matter to put the world right and then when when they're in their priestly position the rest of the world is going to come and bring their wealth bring their offerings and come to learn of the God of Israel from the Israelites he brings good news of good and he publishes salvation and in publishing that salvation what does he say and who does he say it to that says unto Zion your God reigns there's been a controversy the world is not sure

anymore in fact the whole world thinks that the Babylonian God reigns and finally everything is put right and the god of the universe who hides himself reveals himself and he establishes that he is the God of Israel forever he's the Mighty One of Israel forever he's the Mighty One of Jacob he's the Holy One of Israel forever and now the whole world is stumped and they finally get it in fact so much time that this is a crisis for the world so good news is not good news for everyone the fall of Babylon is bad news for the world the whole world is going to mourn the loss of Babylon but the loss of Babylon is the exaltation of Zion it's the restoration of Jerusalem and and that should be a moment of intense joy for the whole world but you know what it's not and how do we know it's not John told us and that's why we have to keep going back to Revelation because we have to keep reading revelation over and over so that we can get more understanding of what depth was revealed unto John so he says here in verse 7 behold he that is Jesus Christ our Lord our Savior the savior of Israel he comes with the clouds and every eye shall see him does that mean that every I will rejoice so the whole world is gonna see him is the whole world gonna break out finally God is here every eye will see him and they also which pierced him and we know from looking at Matthew 23 and looking at Zechariah 12 that initially Judah rejects Christ but because of the pain that they've gone through the catastrophe that they've suffered they are finally pleading for him to return and they finally acknowledge him so they which pierced him when we look at zechariah 12 they acknowledge him

finally and they rejoice in their king
what about everybody else because it's
not just those who pierced him that see
him the whole world is gonna see him is
he good news for the whole world look
let's just read I think something what
I've heard I mean Christmas I think is
next week and everybody's exchanging
gifts because joy to the world the Lord
has come let the earth receive her King
isn't everybody happy let's read the
text together and all to hundreds of the
earth I think that means everybody all
the different tribes the different
nationalities the different
races everybody who has given themselves
over to the beast because if you resist
the beast you'll probably be dead be
martyred but those who give themselves
over to the Beast and are joining in
with the persecution of God's people oh
now the Lord has returned
joy to the world it's good news for
everybody and all Kindred's of the earth
shall wail why would they wail because
of him oh that's funny I thought
everybody would be really thrilled that
the Lord is returning seems to indicate
here that good news for Israel is
horrible news for the world
and the whole world is going to mourn
and wail because of the return of Jesus
Christ and what does John say even so
amen let it be because of the corruption
and the evil that they've given
themselves over to and the wickedness
that they have done and the pain that
they have caused and the slaughter that
they've been engaged in and the
captivity and enslavement that they've
endorsed even so amen
so good news is not good news for
everybody it's good news for Israel and
it's good news for Judah back to Isaiah

47 take the new stones and grind meal
Solicitors glorious our daughter of the
Chaldeans who's been in such a glorious
position is now reduced to slavery she
that enslaved has now been reduced to
slavery take the mill stones and grind
me also work like a servant uncover your
locks make bear the leg uncover the
thigh pass over the rivers so this is
very hard now to interpret just because
we're in a very different time let me
see if I can explain this it's gonna be
very very difficult because if I say to
a woman today bury your leg and uncover
your thigh should be thrilled in fact
you don't have to tell them they walk up
and down in there naked and make it mess
with tattoos everyone
is a wonderful thing as a sign of great
glory and its sophistication but there
was a time when women were modest and
the idea of exposing your bare leg and
maybe by accident your leg gets exposed
or maybe your garment is torn and your
leg is exposed this would be a great
shame it would it would be a highly
immodest and so this wonderful glorious
ruler is now in the dust and her her
nakedness has been revealed and and and
it is a great shame upon her that there
is no glory your nakedness shall be
uncovered and when God says that there's
an implication here of the wickedness
that she has been hiding she's been just
in purple and golden and great jewels
and perfumes and just looks so gorgeous
and just so seductive and everybody
buying into her glory and when the
nakedness is revealed it means that the
great extent of the evil all of the
slaughter and the enslavement and the
high price that was paid for her to have
this glory all of that has now been
revealed your nakedness shall be

uncovered yes the shame your shame shall
be seen and I will take vengeance of
goddess God is a God of vengeance
sometimes people think that God cannot
do anything harsh that he's just so
loving all the time and he just want
that give the whole world a hug not
really no he's a God of vengeance and so
we wait for him and we're patient but
when he comes we want him to his wrath
to pass over us and it's gonna land and
it's gonna land on the head of the
wicked and he stays here he'll take
vengeance and I will not meet you as a
man he's coming as God in His glory and
he's going to unleash his wrath and it's
gonna be an unfair battle it's God
against man but it's called taking
vengeance for the wrath that has been
been done to his people goes on as ayah
writes as for our reading
our Redeemer the Lord of Hosts is his
name the Holy One of Israel so the Holy
One of Israel is his name he's the Lord
of peace he's on his own he's 3 the host
of a grape or the Lord of a great army
he's coming with all his angels and all
his saints he's the Lord of Hosts the
Holy One of Israel so so he's the Lord
of hosts that's his name and to be more
specific
his name is the Holy One of Israel this
matters we have to understand he's the
Holy One not of the world but he belongs
to Israel he's the God of Israel
exclusively and forever this really
matters we if we're going to preach the
gospel this is what we have to preach
that if you're not in Israel you're a
dog you've got to repent and you must be
grafted into Israel to match her
eternally otherwise you are nephesh and
your life will come to an end
nephesh meaning just a soul a living

soul that when God in Genesis if you read God made the different kinds these living souls and they all died it's only man that has the opportunity to live forever and God has set up is eternal is his plan for eternal life in such a way that you cannot live forever unless you are in Israel and that's made very clear at the end of the book in Revelation chapter 21 as for our Redeemer the Lord of Hosts is his name the Holy One of Israel so now that we know his name Matthew 24 begins to make more sense he says then shall they deliver you up to be afflicted so so you represent something that they hate what you represent the God of Israel so whether you are a physical descendant of Israel or you have been grafted in and you're part of the firstfruits army of Israel the fact that you represent Israel is a hateful thing in a world that just wants to be no borders no wall no USA at all that they're here enchanting no borders no wall no USA at all our other crazy anyway they said little you up to be afflicted and we shall kill you why and you shall be hated of all nations for my name's sake so we have to understand what is it about his name that causes us to be so hated it's because we understand that he is the Holy One of Israel and we're going to be preaching the good news to Israel and the bad news to anyone who dares touch Israel and when I say Israel I mean the house of Israel meaning the whole house of Israel meaning the tribes of Judah and the tribes of Israel so you shall be hated of all nations for my name's sake and in revelation 17 for a sex we see this and I saw the woman drunk with the blood of

the Saints and with the blood of the
martyrs of Jesus and when I saw her I
wondered with great admiration what is
it that the Saints are doing they're
preaching the good news of the Holy One
of Israel

returning to redeem Israel and they are
ruining all the Gentiles to be very
careful about what they do with Israel
and then that just reminds me actually
there's another scripture that I wanted
to look at and I'll just I'll come back
to it but it's a very interesting
scripture I believe it's in Matthew 13
but actually well other thing but let me
just check very quickly see if I can
find in Matthew 13

see if I can find it here very very
interesting scripture and I believe it's
here in Matthew 13

[Music]

and I don't see it right now I think
when Pastor Mary comes on it'll give me
a chance to search for it I'll find a
very very interesting scripture it'll
it'll jump off the page actually maybe
it's yeah I think it's Matthew 13 in
Matthew 10 and I'm gonna find it it's on
my mind so they're dirt she's drunk with
the blood of the Saints because she
hates what the Saints represent and she
hates what the Saints are preaching
because it's in it's in contrast to
everything she stands for that as long
as the Saints are alive and pre-trained
all eyes should look to Jerusalem she
wants all eyes to look to her and for
Babylon to be that holy city and so
Babylon to be that exalted position in
that exalted position but the scenes are
saying no you're gonna you're gonna come
down the Lord is going to destroy you
it's Matthew 1022 that that's thank you
so much about pastor Mary I believe I

believe that's actually right Matthew 10
it's just on my mind here so let's see
no that's actually not the one I'm gonna
find it after it's it's close and I
think it is in Matthew it's other method
entities pardon is just on the one I
really want to find it it's a passage
that says the gospel will be preached to
the Gentiles as a witness against them
and I just want to find that
Matthew 10 so it's Matthew 10 18 okay so
it says here let me just see if you can
read this Matthew 10 18 and you shall be
brought before governors and Kings for
my sake and we will be preaching the
gospel but what is it that we'll be
doing will be preaching the gospel for a
testimony against these Kings we're not
preaching try to convert them this is a
testimony of the gospel the good news
for Israel is bad news for these leaders
and somebody has to have the courage
somebody has to be filled with enough
Holy Spirit that we can look them in the
eye and say you are wrong you are dead
wrong what you're doing is wrong and
your window is closing and so this is a
test the gospel is a testimony against
them but who else is that a testimony
against it's a testimony against the
Gentiles it's a that the bleep news is
is a testimony it's a witness when when
Matthew 24 this is the same author in
Matthew 24 he says that and this gospel
Matthew 24 verse 14 will be preached in
all the world for a witness and somehow
we think this is good news and it's
going to be welcome news it's gonna be
Corley's can be hated news
because in the world's is were all the
same and we're all equal and everything
is the same we're saying well there is a
holy people and you should not touch
those people and you should not be

persecuting them and Jerusalem doesn't belong to you it belongs to them and God is going to restore them in that land and all of this has to be said and God is the Holy One of Israel forever because this has to be said as a testimony against the Gentiles so this this notion that thought is for everybody in let's all just hug and sing together and we don't need borders because everybody just loves each other no there are bad actors in the world and there are some people who are following the devil's agenda and it's probably not a good idea to just open your home to everybody probably a good idea this side of the millennium to have locks on your door and and borders on your country so here this what we see in revelation 17 with the one who's drunk put the love of the saints it's because the Saints and the woman stand for two totally different things one is exalting Satan as the Most High and the other is exalting the Holy One of Israel as the God over the whole universe so he won't adapt her with great admiration isaiah 47 verse 5
baptized i sits sit we silent
we've heard enough from you but we can't shut her up
so we preach the gospel she slays us but now God comes it says be quiet and you get you into darkness all the doctor of the Chaldeans Isaiah doesn't want us to be mistaken and think it's somebody else it sits in the present time the derivative we descendants of the Chaldeans and Isaiah by repeating this he's saying don't spiritual eyes this away don't say Babylon is them sort of spiritual city that's just all over the world you know it's the original city and it's all come back to that original

city and the people in that city are
descendants of the original people and
that city matters because Nebuchadnezzar
his vision was all about that city he
was the head of gold and every Empire
that followed him took over that city
and in the end it's very clear because
Assyria and Babylon fall together that
that's great city of Babylon comes under
the control of the Assyrians as it did
under the Ottoman Empire so the great
Ottoman Empire that just was so vast one
of the things for sure that it had
control over was this great city of
Babylon and then it died in

[Music]

twenty-one and now it's coming back
turkey is saying we need to spend our
borders back out to where it was with
the Ottoman Empire and then from there
these will he wants this global vision
and we're just nobody's seeing what's
going on here how powerful this fit
they're they're obvious meanwhile Europe
has fallen apart sit you Cylons and get
you into darkness Oh daughter of the
Chaldeans for you shall no more be
called the lady of kingdoms so so that
the Queen that the lady that sat over
all of this and that always that goes
back to synonymous that's why that
crescent moon and star is an ancient
symbol because it was new round was the
star the moon was summer I'm us and that
was a sexual symbol of the two together
as is the Star of David which has
nothing to do with David all of these
symbols are pagan the Christian cross
the T of Thomas all these symbols are
pagan symbols that go all the way back
to the original city of Babylon and so
this lady now this synonymous concept
that has the ideas people die ideas
don't that these ideas have come all the

way down being consolidated all these different religions of this Middle Eastern area they would all come to Mecca with all their different gods in different languages they would all come there and worship all these different gods that come from the original Babylonian city and all Muhammad did was consolidate all of these different religions into one but it still has these clues the crescent moon and star that make us know this goes back to the Lady of kingdoms and this is where it ends the Lady of kingdoms she's gonna set her ideology is gonna sit over all of these other kingdoms but that's going to be ahead when price comes what will never be done again but that explains what happened huh how did she get into this exalted role with everybody accepting her religion gob explains I was angry with people God was very angry with his people they were into a covenant with him and they betrayed him and they went whoring after all the other gods and so God was angry with his people and he has polluted his inheritance so God did this Israel is God's inheritance his heritage is Israel forever but because he was angry and because he's a righteous God and he has to do what's in the Covenant he polluted his inheritance he allowed it to happen and the abomination of desolation was set up in the holy city and got even though this is his inheritance he allowed it and that's what we saw in Habakkuk when he says I'm gonna raise up the Chaldeans and they're gonna come in slaughter mines and enslave my people God allowed this to happen and I and I had a I was the one who gave them into your hand and you know even when you look at the Ottoman

Empire how it how it came to be this man
called Osman
who in Latin is Ottoman the we should
really call it the Ottoman Empire he was
just this great powerful warrior
relentless through the incredible
fighter and with his small army and then
he accepted Islam and that will enabled
him because of the jizya and the booty
to really recruit a whole vast empire of
people who would fight for him because
of the ideology but when he went to
slaughter the business empire it was
well fortified it had walls and it was
very well fortified and it was just this
freak storm with flash flooding that
changed the course of the river so that
the way the Byzantine Empire was being
protected became irrelevant because the
river changed course and so Osman was
able to get into the business team
Empire which was very weakened because
although all of the fighting of the
Persians and then they were just able to
slaughter them and take them over and so
because of that freak storm you could
say you know what God gave the Empire to
listen and we've seen that going west
where to where we see these storms that
Allah allowed the British to take to
take control so God is the one that gave
them into your hand and I guess we'll
see something like this again in the
future where God is the one
it's his work he's the one doing this
and he gave them into your hand and you
showed them no mercy upon the ancient
have you very heavily laid your yoke so
obviously you have more care you don't
have any regard for them as human beings
and even the oil this person you just
treat horribly and you said I shall be a
lady forever so I'm going to enjoy this
this this position of control over all

of the other kingdoms forever so that
you did not lay these things to heart so
obviously somebody was telling you these
things
somebody was preaching the gospel to you
as a witness somebody was warning you
but you didn't lay it to heart neither
did you remember the latter end of it
even though it was told to you you said
no I'm gonna be in this position forever
and here we see that doesn't last
forever in Revelation 18 a mighty angel
took up a stone like a great millstone
cast it into the sea saying thus with
violence shall that great city Babylon
be thrown down and shall be found no
more at all and notice how specific John
is it's not a time of a system that's
kind of nebulous and it's all over the
world called Babylon it's the specific
city that great city the original city
that became great again that great city
will be torn down with violence and the
voice of Harper's and musicians and of
Piper's and useful could all be the
sophistication and the culture that's
here shall be heard no more at all in
you and no craftsman of whatever craft
he shall be found any more in you and
the sound of the Millstone
shall be heard no more at all in you so
you're not going to be called a lady
anymore your sophistication your glory
it's over
back to Isaiah therefore here now this
you that are given to pleasures and so
if you see these people
and their ideology from this area the
city that are going to be in power that
have given themselves permission to rape
and to steal and to lie and to change
wives like they change shirts and to
take advantage of children would harm a
child

who harm a child but they give
themselves to have pleasure from babies
what is this how can you do this and
think this is normal that this is right
back that the God of the universe we
were just wrong people commit suicide
when they suffer these things but you
see this you think it's okay you hear
this you that are given two pleasures
that dwells carelessly but you don't
care about anybody like nothing can
touch you that says in your heart I am
and none else beside me I shall not sit
as a widow
neither shall I know the loss of
children and this is why we call it the
the virgin daughter she just has never
tell had any calamity
she's never suffered and he says I am
and none else besides me God says that
and leading up to our to chapter 47 God
repeatedly says I am and there is none
else beside me I'm your Savior and
there's no more beside me I am God and
there is none else beside me and now we
see this being inspired by another being
Satan who wants to be like the Most High
and so because I am God
was Satan saying I'm God and is none
beside me when he puts his human Nimrod
proxy in place that king can say this
God and there's no God beside him has
put me in place and therefore there can
be no king beside me I'm the greatest
and so we need to be very careful when
they say there is no god but Allah
because that rules out Jesus Christ that
rules out God the Father and God says
there's none there's me and there's none
beside me and so who is saying this that
says hey my God is God and there's none
beside him and he's made me ruler so
there can be none beside me I am and
there is none of beside me I shall not

sit as a widow so all these kingdoms
that I have neither shall I know the
loss of children but these two things
shall come to you in a moment in one day
and that's exactly what John saw in
Revelation the loss of children and
widowhood it's going to come in one day
they shall come upon you in their
perfection for the multitude of your
sorceries and for the great abundance of
your enchantments again this is ancient
mystery religion that has just cascaded
down to the modern time we put some
cosmetics around it but God calls it for
what it is ancient sorceries ancient
enchantment enchantments so this
greatness that we see David looked at
this and he saw this evil and he says to
himself when I felt to know this it was
too painful for me until I went into the
sanctuary of God then I understood their
end surely you did set them in Slippery
places you cast them down into
destruction and this is where the
confidence of the saints comes from that
despite the glory
despite the great power of these
Babylonian kingdoms and the chief
Babylonian Kingdom the Saints can preach
the truth because of this understanding
that came to David but God has set them
in Slippery places in in a moment
everything collapses for them or we have
eternal life you cast them down into
destruction how are they brought into
desolation as in a moment they are
utterly consumed with terrorists and
that's what John says or Christ actually
says it but John writes it in Revelation
that the patience of the Saints he says
here is the patience of the saints
and John says I'm your companion in
tribulation and in the kingdom and
patience of Jesus Christ that we have to

have this understanding that David had that this is all over them that they're like a flower they're gonna blue and look glorious and then they're just gonna wither and disappear and that's the understanding the Saints after they have to have back to Isaiah as we wrap up here for you have trusted in your wickedness you have said none sees me they know they're doing wickedness you can't do these things to human beings even if you hate to human being truly were wired in such a way that there's an empathy that the even animals shouldn't suffer but you've done all of this and think that nobody sees you your wisdom and your knowledge it has perverted you exactly exactly when you start reading these texts and you think that this is the God behind this this is your wisdom it perverts you and anybody who is devoted to this text becomes forwarded becomes a pedophile becomes a politic public a polygamous becomes an adulterer becomes a whoremonger because all these things are becomes a murderer becomes a liar because all these things are endorsed by the Scriptures so your wisdom and your knowledge it has perverted you and you have said in your heart I am and there's none else beside me therefore shall evil come upon you calamity will come upon you you shall not know from where it came this is how it got that is furious and he's going to act and is gonna bring this whole system down and mischief shall fall upon you this is the ancient text and shall not be and you shall not be able to put it off and desolation shall come upon you suddenly which you shall not know and this is the power this is the understanding of the Saints have John writes here is the patience of

the
he who lives by the sword must die by
the sword
and this is what the citizens are
looking at the sword and looking at the
slaughter and they're saying go ahead do
your worst
or remember he that lives by the sword
must die by the sword
so you won't be able to put it off
desolation shall come upon you suddenly
which you shall not know stand now with
your enchantments and with the multitude
ears of your sorceries weary whirring
you have labored from your youth if so
be you shall be able to profit if so be
you may prevail so go ahead and invest
in your ideology and knock yourself out
and I hope it works out for you but as I
was saying here you're up against the
god of the universe he's a God that
hides himself and he's certainly hiding
himself from Jacob and he's certainly
hiding himself from Judah but when he
reveals himself he's going to act on
their behalf
so you better know what you're doing and
you better be sure has anybody died and
gone to this paradise where they just
had such pleasure that's just so
wonderful that for eternity they get to
rape the same virgins over and over and
they just raped her and then she becomes
a virgin again and then the raper Ganesh
becomes a virgin again how does that
work
has anybody actually gone and done that
and come back and said I've been doing
this for a thousand years and it's just
wonderful and you should die too and
join me or are we just guessing and
hoping that that sink you can fact what
happens you are rare even the multitude
of your counsels let now the astrologers

the stargazers the monthly prognosticators stand up and save you from these things that shall come upon you and you'll remember Nezzar had this vision and he just saw everything and he saw the statue collapse and and it was destroyed and a great wind as payment blew it all away in a mountain came up instead that he was troubled and and he needed help and he called for the astrologers and the stargazers and the prognosticators of the caja and the Chaldeans of of Babylon to say help me understand what all this is what the one all this means I'm troubled all these these are the the descendants of these people behold they shall be a stubble exactly what Daniel saw exactly what Nebuchadnezzar saw they shall be as stubble the fire shall burn them they shall not deliver themselves from the power of the flame there shall not be a call to war mad nor fire to sit before it thus shall they be unto you with whom you have labored even your merchants from your youth and again if we read revelation 18 we see at revelation 17 and 18 we see what happens with all these merchants that have made themselves rich off Babylon and that's what we're seeing now with this globalism when when it talks about the merchants being rich were we're basically losing the middle class that the one socialism brings is poverty but not just poverty it brings enormous wealth so you end up with this two-tier system where the majority of the population are dirt poor they're slaves and the elite are incredibly rich but it's sold hey socialism everything needs to be free everybody's equal everybody needs to have everything and it's unfair for the rich to have things and they

shouldn't even if
work hard they shouldn't have it we
should all have it and then we buy into
this and what happens the elite get
incredibly wealthy the poor get poorer
and the middle class is destroyed and
that's our future no more middle class
and so the merchants the googles of the
world the Facebook's of the world the
Twitter's of the world in any other of
these great merchants that are coming in
the future

Amazon's of the world they're gonna be
incredibly wealthy because they're going
to agree with this globalist system and
so these merchants and we have to read
in revelation 17 and 18 what happens to
these merchants ultimately they shall
get to you with whom thus shall they be
unto you with whom you have labored even
your merchants from your youth they
shall wonder everyone to his quarter
none shall save you so that brings us to
the end of chapter 47 what I want to do
now is just spend some time with you and
just look at the text anything that
we've covered we've only started in
Isaiah 1 I read all of chapter 1 enough
the first part of chapter 2 and I said
the whole story of Isaiah is right there
in the first chapter in the first part
of the second chapter and in fact the
whole story of the Bible in a way is you
know that the majority of the story of
the Bible is right there and then we
went from there to chapter 40 that
begins with hey comfort my people this
is good news and it begins very much the
way the New Testament begins because
that's the New Testament portion of the
Bible within the Bible and that's what
we said Isaiah was the Bible within the
Bible so we have we have gone from
chapter 40 41 42 43 44 45 46 and

seven so we would I think we've done
nine chapters eight in Isaiah second
Isaiah plus chapter one so I wanted to
see if there's any questions or comments
and what I'll do is just check here and
see if I can get past them early on but
please I'll go ahead in the chat and the
Facebook and I think we'll check YouTube
as well and just answer any questions so
just give me a moment while I see if I
can get past them area
how them are you either okay I'm good
now I just need to know if let's see
here can you on the chat tell me if you
can hear pastor Murray can you go ahead
and talk Murray and yeah yeah
yes
right Hey
and I just want to see if people heard
you maybe on the chat no cannot hear
Mari okay all right let's do this if you
could call me on my cell phone and then
what I'll do is just get rid of this
echo and then one will do is I will
broadcast your your um your voice and
that I better work much better
so we'll just hang on a bit and just
please fire up your questions while I do
this and then won't be able to talk
through them pasta me was just saying
something there about Matthew 10 and the
different translations so we need to
talk about that so which is such as wait
till I get him on audio and then we'll
be able to share his comments
hey Mary hello okay great I'm just going
to wait to get a speaker so that you'll
be a little bit louder let's just see
here I want to get on to Facebook are
you able to monitor the chat yeah
okay great all right there's a little
bit of a delay there so I'm going to see
if I can get into Facebook here
and doesn't talk no more let's see how

that's coming through yeah yeah listen
if everybody can hear me nothing no
hundred plotting chatter okay yeah so
just on the chat please let us know if
you can hear pastor Murray you should be
able to hear him now yeah and
unfortunately you're not gonna be able
to see him sorry about that just the way
this is working right now I can't get
his visual no comment no feedback yet
okay I'm just getting feedback here that
can't hear you but now they they should
be able to hear let me just come the
firm okay good

all right so you were just talking about
Matthew 10 can you go back to that and
I'll just I'll just be out up here
yeah wait a minute why you're going to
Matthew 10 verse 18 it's good to point
out that sometimes the different
versions of the Bible
altered meanings whether intentional or
unintentional is that's that up to
everybody else to decide back but the
new change names were easier which is
typically fairly close to the King James
actually makes a quite a different
connotation here at verse 18 you would
read it from the King James ruse that
you were brought before governors and
Kings for my sake as a testimony against
them and the Gentiles linking James and
I'm assuming some of the other version
is well changing to a testimony to them
yes and to the Gentiles which is a
different connotation than a testimony
and
but when you read verse 19 but when they
deliver you up do not be worried about
how or what you should speak and that
really clears up that it definitely
won't show you testimony against an
opportunity right very good thanks for
bringing that and also when we look in

Revelation in chapter 1 verse 9 John writes I John both your brother and companion in the tribulation so so Jonas and laka I'm in this with you I'm your companion in the tribulation and kingdom and patience of Jesus Christ so he's basically he's been there he's bzees with us we have to go this tribulation we're also partners in the kingdom but also in the patience because we have this understanding that David had and he explains that he was in the island that was called Patmos for the word of God and for the testimony of Jesus Christ so this testimony of Christ it's not a party it's not like hey I get to preach the gospel it's something that's going to be absolutely hated and so very clearly when Christ is saying you're going to be hated but this is gonna be a testimony I think whether it's to or against as you said you said customary when you read it in context it becomes very clear that it's not a welcome message it's a message that we will be persecuted for it absolutely you have a question from the sister with Marianna North Carolina she goes to Isaiah chapter 19 verse 24 and has the following question she says hi Adrienne last week you spoke in Europe being destroyed question number one who will destroy them and then referring to Isaiah chapter 19 verse 24 she says it says Israel will be third with each of these Syria what does that mean okay so let me take the second question first where it says that Israel will be third with Egypt and it doesn't say Syria it says Assyria so the difference between Syria and Assyria that we're looking at in my understanding here we're looking at the king of the north and the King of the

South who hate each other and who have been fighting against each other and who have been trampling and fighting over Jerusalem and and and fighting each other over Jerusalem that these who have been enemies against each other and also enemies of the people of God but because God's chosen people that God is going to come and bring all of this hostility to an end and and the Satan will be put away the deception will be gone and and these people will convert they will be going to Jerusalem and keeping the feast they will be bringing their offerings and and there will be an acknowledgment that they were wrong and that God is the God of Israel and so it just shows that eventually the whole world beginning with the immediate powers around Jerusalem is going to acknowledge that God is the God of Israel so hopefully that answers that the first question you mentioned the destruction of Europe and who will destroy them what I was saying there was traditionally we have said that it's going to be a European beast power I don't think destruction of Europe is the right word if I use that word may be certainly destruction of European culture but there will always be a Europe what those countries will be there those peoples will be there but they will be overrun and we're seeing that now so if you just sit back and do nothing nobody lifts a sword nobody does anything but we just watch and we watch as the democratic nations allow people to come into their countries and not accept their values there is no check to say like do you agree that this is civilized behavior and this is the way you should treat women or there's no check that I've just come in and a we

need labor and we don't
having children so you come in and and
they have you know purr purr mail let's
say somewhere between 15 and 25 children
per mail that comes in and each Western
Mail might have between zero and two
children and we just let that play out
and do nothing no more bad acting
no slaughter no enslavement just do
nothing just let that the democratic
process run its course the very people
the very hosts will be voted out of
power and the new people who are coming
in and having 10 15 25 children per mail
and then that's putting some bad acting
as well where there's gonna be the rape
of the host women and the impregnation
of these women and because we have 1,400
years of history to look at all of this
to see hey this is consistent this is a
pattern and and and you had and and a
desire to be in control then clearly we
can see that it's just very clear I'd
like we have to be like denying reality
to say that these countries are in
trouble and there's going to be there's
gonna change hands and there's gonna be
a new people a new sheriff in town so
when I say destruction of Europe I don't
mean Europe is gonna disappear but I do
mean the Europe that we've known up to
now and you can look let's take Paris is
a microcosm of what I'm talking about in
the past he said I'm going to Paris Wow
city of romance City of Culture city of
sophistication now I'm going to Paris
it's have you been to Paris lately it's
it's pretty miserable and you can see
the French culture disappearing so
that's what I mean by the destruction of
your
answers yeah you can see that that
obviously Europe is on the fast track
but he's been here in Canada you can see

the beginnings of that with our our
elected officials changing their the
makeup of our elected officials is
definitely changing so much so that our
Minister of immigration has only been
here for less than ten years yes exactly
and he's passing policies that are quite
devastating to the host Canadian
population

[Music]

yeah looking you too but I'm looking at
Facebook and the way Facebook live works
it's not like once it's record and it's
in its then there I can go back and see
the past comments I can only see a few
comments in real time so the comments
just disappear I think it shows me five
at a time so I have to keep my eye here
but I saw a question that said something
like so the ancient city of Babylon is
the Babylon spoken of the Bible and not
Rome is in that was a question market
and I would say from my perspective this
is just you know one guy who's reading
the scriptures and studying the news and
looking at geography and history from my
perspective and I forget who and who
asked that question it seems to me that
the Bible supports that the ancient city
of Babylon is the future city of Babylon
that will be destroyed and that
Nebuchadnezzar's image was all about who
controls that city of Babylon and that's
why I wouldn't count all that the Bible
never actually says well when we'd roam
into the Bible and so Rome is certainly
one of the beasts powers as John says
one is five five have fallen one is and
another is yet to come and so that one
that is there was during John's time was
wrong but that would but limited Nezzar
did not have visibility to
because Rome never never controlled the
ancient city of Babylon but certainly

Nebuchadnezzar did certainly the
Persians did certainly Alexander the
Great did and then after Alexander the
Great the Ottoman Empire or the Islamic
empires and certainly the Ottoman Empire
they all took control of the ancient
city of Babylon which is in Iraq today
and so that belongs to the Muslims and
then that died the Ottoman Empire died
and now it's coming back to life and so
it makes more sense to me that
Nebuchadnezzar had a line-of-sight to
these two Islamic empires and and then
John also says that one is and he says
another is yet to come so it's not rich
it's another one and that one lets to
come has two heads it's the seventh but
then there's an eighth and the eighth is
of the seventh so whatever that seventh
is it dies in its resurrected and has
nothing to do with the sixth so so Rome
cannot be the sixth the seventh and the
eighth because it doesn't have three
resurrections or three or two
resurrections is resurrected once and
the one that is that John saw he says
another is yet to come and certainly for
those people who were listening to John
who heard him preach who read his
letters life and all of their
descendants that whole area what we call
the Asia Minor all of them were
slaughtered by the Islamic empires and
we call it Turkey today the Turks which
was the Ottomans so they those people
who read the original scriptures they
were subjugated by the one that was to
come so that would huh that's how I
would answer that but again I'm gonna
say all of this because it's prophecy
because we're trying to read what's
going on what's going to happen in the
future I'm speculating and so it's for
you to look and say okay that sounds

interesting but I don't know maybe not
to it maybe it is I'm not saying this is
the way it is because I say solve no
okay so that's all right that's how I
read it go ahead don't that's a relief
Alex we don't get it and
you have a few other three other
questions came in make a couple of hours
should be pretty quick answer so I'll
get to those and it's got a third one so
sister feet asks that God being the God
of Israel if there's a foundation issue
for the rest of the world can you assume
it again with God being the God of
Israel or the Holy One of Israel as we
talk to them today yeah
is this a foundation issue for the rest
of the world
if I understand tell me from
understanding this correctly pastor
Murray
that identifying God as the Holy One of
Israel is this a salvific issue for the
rest of the world is that the question
that's how that's how I would understand
question I think the answer is clearly
yes
absolutely they must be I think he
covered this very clearly today for sure
today and in fact that there is only one
way to salvation and that is through
Jesus Christ and he came to to be the
perfect example that Israel couldn't be
so that God could continue to keep his
covenant with Abraham Israel I think the
answers very pleasant there is no other
way yeah very good
and I didn't perfect second one had
another question from him
referencing what we were just speaking
about the European destroyed culturally
as you were talking about her question
after that chain after that change is
after that change when the USA in

Britain will be in trouble I didn't follow that so I think what she's saying is how as that the you referenced the the Islamic culture coming in and reproducing it every man you know 20 22 25 children versus European culture the Western culture at 1:02 - after this transitions is that when you have saved that will be in trouble after that after that it was USA and Britain her question was USA in Britain but I think broader scope tonight I think we would agree it would be into Europe and yeah so this is Europe in certain countries within Europe run big trouble already sweet and German reference and certainly England is in huge trouble and then particularly the big cities in England are in big trouble Canada is in big trouble I would say right now America while they have this very a man of very thick skin and a very strong nationalist and is very passionate about his borders the borders of his country and acknowledges Jesus Christ as the God of the Bible I would say as long as America can keep him in play that they have they are not as they are not in as much trouble as Europe the UK Canada but you know he's one guy I think if he were to leave the office today and is it Michael Pence that vice president is Michael is that ready yeah if he were to take over while he's a Christian a professed Christian he does not have the the fortitude and the thick skin of the current president and I just don't think he'd be able to stand up to the globalists the way this man has so it really is a question of do you buy into globalism or do you believe that nations have a right to to sovereignty and then I believe the current president as long as America has

that that that oh should I say that
backbone in in the highest office of the
land which right now is the strongest
office in the world
America is not in as much trouble right
now as the as the other countries
although America has its own problems
and there's all this rivalry from with
it you know it's very if you look back
how did the Byzantine Empire fall when
we say the Roman Empire
how did the Roman Empire fall to savages
it's because of all this this internal
conflict and bickering and thinking that
nothing could ever happen to them and
overextending themselves and all the
things that we see happening to the US
right now so the gun God calls this his
work it's it's his work so it's his
strange work he calls it his whole work
he calls it his unbelievable work he
calls it his short work but it's his
work and he's the one raising up the
Chaldeans and he's the one that's going
to punish Judah and punish Israel and
we're the ones who have to see all of
this and in this in spite of all of this
say the Zion your God reigns and there's
good news the follow-up question here a
separate lecture from Nina actually what
the question is was there and will there
be a future connection of Assyria and
what was the Ottoman Empire so will
there be a future connection of the
Assyrian Empire and the Ottoman Empire
and while I'm answering this Maria I
believe that you had some comments as
well and thoughts that you wanted to
share so please make sure that you get
to those things that you had on your
mind you get to say that was true yeah
yeah yeah so the what was the Ottoman
Empire and that's a great question
because I didn't even know what the

Ottoman Empire was it's it's just recently where I've had to study him I would say without history were blind the people who don't know history are blind because history what were there's a saying the past is prologue so if the past is prologue prologue meaning its introduction it's what it introduces what's coming so if that's prologue and history repeats itself if they can be successful in keeping us from history I think it was George Orwell who said he who controls the past controls the present and he sorry he controls the present controls the past and he who controls the past controls the future so the the people in power today are trying to rewrite history and hide history we have to understand the Ottoman Empire very quickly it was an Islamic empire that Mossman was this incredible warrior and he had a band of men that were just ruthless and when the Mongolians came over with this lamb slaughtering everyone he fought back and then was able to push them back but then he adopted Islam and when he adopted Islam he was able to offer people jizya and and the 20% booty of that and anything they conquer they could they could distribute it equally among everybody so he was able to just have this vast army and with that he went into the Roman Empire and conquered it and and was able to establish this vast empire it's one of the greatest empires that has ever been it in terms of landmass that it covered far bigger than the Roman Empire and and it was just great and it ruled for fun where I forget from when ii went on hundreds and hundreds of years maybe it was four or five hundred years it was in power until until the first world war

and the British and the French managed to conquer it with the Americans and brought it down and then Turkey became a secular country because Atatürk that the new ruler he just said Islam is holding us back because we were we were outgunned the the Christian nations had such sophisticated weaponry and we are backwards people so he basically outlawed religion and made Turkey a secular country and that's when we say it died though it was the had a fatal wound but now we see our one who comes from the rural areas of Turkey where they held on to their religion and held on to their belief of the grandeur of of the Ottoman Empire he's now in power and he's pushing this religious mindset and and restoring the glory of the an empire so I hope that that answers the question was there another question there yeah there's one more here from JP and the question was comment first undone followed up by a question one of the judgments on Babylon comes because of their sorceries and enchantments that this is a prophecy what modern gave words that who use instead the you know some sorcery sorceries in the chanter of other endured biblical words or biblical time words let what type of mark how would you explain that it in modern they go yeah I think we might say something like divinations and pharmacare drugs people who are you know these jihadis they load up on all kinds of pharmaceutical drugs that give them incredible courage that allow them to blow themselves out to be fearless in battle this is the the Bible refers to a pharmakeia as sorcery it's mind-altering and divinations where there you know that when they're praying

to their their idols and having their prognostications based on their idols that these are all this this spiritualism maybe we would call it that spiritualism and any sort of mind-altering I would call it voodoo but maybe we just call it pharmaceuticals all of that I think would be it's a great question and maybe we can drill down on that a little bit more but I would say any sort of spiritualism and anything that sets mind altering I would consider sorcery in today in English yeah we should bet so yeah you're asking for my comment no I will just kind of encourage the listeners and the easy brethren who are listening to really dig into some of this that we've been studying we're on week 11 now and you and I have spoken offline quite a bit that this is this is really heavy stuff this is the prophecy of Isaiah explained in in a deeper fashion than I've ever heard before with with explanations that especially relative to replacement theology versus spiritualizing the Old Covenant and the importance of really understanding this and not to be afraid to jump on the chat and ask some questions I certainly didn't understand it right off right right away and I want to smell him and continuing to study this as we go through this so I would just encourage folks to I know everyone's very appreciative of studies we see those in the comments there quite recently but let's not be afraid to jump on and a clarification there's there's a lot of heavy stuff here that we're all looking through you know I included so that was just my encouragement cities out there to take advantage of these chat times to come on and ask some questions and and

see where perhaps we need to explain it a little deeper or where perhaps there some follow-up question that's going to appreciate that and I think it was a there was also a question there and I think the chat as well it does it does allow us to solidify our understanding and to verify my getting this and I think that's great that we talk with each other that way so the chat for those of you who might not know it's at CGI dot church online horrid CGI Church online org and that's where we have our chats and I wanted to just mention some but I think there was a question in there about a Syria and so we need to look at the ancient maps as the futures Google if you have your Bible software if you have it it might have that atlas in there and show you the ancient kingdoms so so when Isaiah is talking about Assyria we need to look at the geography that he was talking about because today we would talk about Iraq Syria and Turkey so the ancient empire of Assyria covered this territory part of Iraq part of Turkey part of Syria so today if we're trying to understand what Isaiah saw when he says the Assyrians then we need to look at that geography because that's what he's talking about so I think there was a question there about Assyria and so the Ottoman Empire I did go back yes yes so they often what we call the Ottoman Empire which is the Ottoman was part of the Latin term that is the US 'men empire that would be the Assyrians because that's that that's the land that he came from that he caught that he conquered and again guys when we've got through various chapters in Isaiah and then

double back into Genesis we can see some of these names being repeatedly used and really guiding us to the areas that surround Israel which again goes to show that that Isaiah is in fact a mini private and brings everything together from Genesis to Revelation and we use the same terminology and and the Bible clearly can explain the development when we get into who's name to marry each other knowledge yeah right on and I think that was that was key for me is to realize this is a Bible within the Bible and so everything that we understand from Genesis to Revelation excuse me I kind of picture in my mind I have this image at the old switchboard when anybody was making a phone call it had to go to the switchboard and then they would connect the call to the other to the the other party that you're calling but you called the switchboard operator and that operator would connect you at the party that you wanted to call so all phone calls went through this switchboard that's how I envisioned Isaiah that all prophecies everything from Genesis to Revelation flows through Isaiah

so whatever understanding we have from Genesis to Revelation if we can't find it in Isaiah it's probably incorrect so that's a that would be the challenge that I put on myself if whatever I'm reading in in genesis or revelation or anywhere in between any prophet or doctrine if it's law if it contradicts Isaiah I would be careful even when our Lord was on earth Isaiah was one of the most quoted books he quoted three books repeatedly Isaiah Deuteronomy because he came to live by every word and songs and there's a lot of prophecy in Psalms and so he really opened up the prophetic

nature of the Psalms so Psalms
Deuteronomy and Isaiah he was just
constantly quoting Isaiah so something
an interesting interesting goes breeding
out books were for that a lot because
they themselves are the are the
microcosm of Allah the writings in the
broth yeah there you go
excellent
exactly so they themselves would
comprise the whole Bible right one that
one last point another question but to
say is to help me to help to be as the
listeners and meet her points of that
there is a number of God video and I was
on episode program called peace in the
Middle East and it tells quite a bit
about the history of the Ottoman Empire
and it was recommended watch great yeah
that's a peace peace in the Middle East
great thank you for that yeah we're
going to recommend that because there's
some just some historical context there
and I think one of the greatest curses
that the elite have inflicted upon us
and upon our children is the snow
removal of history from the curriculum
so that we don't we don't know what
happened before us and we just think
that the only thing that matters is us
whereas I think people have a very
strong history and I hated history in
school at least teacher at least part of
it now it's completely optional and
whatever they teaches nuns nonsensical
so I think we have to do our work
ourselves and go back and try to
understand the significant empires and
the significant philosophers and how the
world has come to where it is now
because that's gonna help us have a
better read on how it got here and where
it's going mister another question in
there Mary there's one more question

here from Nina she asks she makes the comment that the Turks adopted Islam but what's clarification she thought that they were Arabs back to write the circle adopted Islam aren't they there with her okay that's a great question and it's a bit of a thorny question so I'm gonna answer the question two ways and I'm gonna contradict myself so pardon me for doing that so number one I'm gonna say that the Turks are Arabs just as the Egyptians are Arabs you know so just as the the Iranians who are really Persians are Arabs that era to be Arab because of the nature of Islam when it comes at conkers and it wipes out the culture and it wipes out the language and it forces people to adopt Arabic so when we say Arab and to Arab eyes in fact if I think it's a scripture in in in Daniel when he talks about mixed people the Hebrew word is paralyzed people so that word Arab actually comes meaning mixed so the Arabs basically spread their language and anybody who then speaks Arabic we call the Arab people so in the Middle East all of these different nations we just call them Arabs at this at the same time however the reason the Ottoman Empire fell is because the rule Arabs who were in Saudi Arabia in Arabia and felt that they should represent Islam they despised the Turks but the Turks were very organized and ruthless when you combine ruthlessness with high administrative and organizational skills they were unstoppable but the Arabs from Arabia they resented that and so they colluded with the British in the French to overthrow the Ottomans so and and the Ottomans were ruthless they subjugated all the Arabs and and the arabs hated that so you know Arabs are anybody who is who adopts Islam in the

Middle East and medon speaks Arabic we say they're all and they're the auricle say these are the Arab peoples and they all fight for their rights but at the same time the people from Arabia proper or who would say are the Arabs and they actually resented the Turks appreciate that clarification on this that makes a lot of sense good history lessons there I'm sorry let me ask you a question because you have been preaching locally on unholiness and I wonder if you had any comments for our Bible study congregation around how all of this ties into holiness I'm sure so I started doing a study on honest from the Naxals to the fact that God if you go on told that he is 23.2 man that we come into his present on the Sabbath and the holy days in a holy manner and to understand what true holiness means as as you mentioned you go down to the New Testament and we see folks of Peter several times talking about the command to be holy for I am holy and where he's quoting from is many several times is from the focus of an address where you are the law of Sakhalin mates the law of sexual purity all of these things were thought of teaching Israel that it needs to be whole the fact that he wants them to be separate he wants you to be sure of in a certain place that is worthy of being called the Church of God and that at all times we must be we must be in a holy state because God rules were holding for and there's a great exactly I believe in Deuteronomy 23 where he teaches his people how to bury their human waste and while we some weed through and as I saw this was God just teaching him how to be clean he actually is very specific where where he says I will walk among you and I do not

walk where this bill and that expecting
that the further example that we can
extend and extract late into I was over
and the fact that near Scott
we must always be in a holy state and
quite often if in our prayers and ask
God to to be amongst us we use that
scripture that says where two or three
are gathered in my name I will be there
so we invite God into our presence I
think as we continue to to remove
towards his kingdom and we see the
defaulting of you is all around us and
we and we are threatened by some of
those those characteristics and
qualities of that is it's descriptive of
the world we live in today
and feed into the church and keep them
with the body of Christ who must be it
nakimura at all times that we are in the
presence of love of God Almighty and a
lot of times we must behave in the holy
manner to really dig into the Torah that
entities like quite frankly tirana me
I said Psalms would be a perfect perfect
places to study understand what it means
to be holy and to take that to take that
very seriously and everything ever the
moistures is the world defaults yeah
right on
it's uh brings to mind the scripture
that says you know based on this
prophetic understanding the scripture
that says what manner of persons ought
you to be seeing that we understand all
these things that are going to come to
pass
absolutely and that's that's what we
have Peter where Peters really talking
about all of the evil and terrible
things that are on the horizon so
despite all of that's going around us
our focus should be
who are we who what we should maybe like

matter of person should movie perfect
perfect well past Maria just see it's
coming up on 9 p.m. Eastern 8 p.m.

questions that come up I think

the future

your sermon on holiness on the chatter
