BLOOD MOONS

SIGNS OF THE TIMES?

BLOOD RED MOONS AND SOLAR ECLIPSES ON GOD'S HIGH HOLY DAYS...WHAT DOES IT MEAN?

As surprising as it may sound, this year of 2015 , two rare blood red moons and a dark solar eclipse are set to occur in April, September and October on the High Holy Days of Passover, Tabernacles and Trumpets, commanded to be observed by God in the Bible.

It's an extraordinary phenomenon that should cause everyone to pause and think! Is God saying something to us? Would you like to hear more from your Bible?

Come and hear George Ramocan and Bill Watson expound from the Bible the global significance of this end-time event!
